

# Your last chance to enrol now for 2012

## FACULTY OF ACCOUNTING AND INFORMATICS

## FACULTY OF MANAGEMENT SCIENCES

### 2012 Places still available in the following exciting courses

We understand, choosing a university is a huge decision and this will play a major role in what makes or breaks your future. That's why we at Durban University of Technology, aka DUT, make it our business to offer a range of academic programmes, specifically orientated towards making you employable in a competitive working environment.

#### How to Apply

Prospective students must call the relevant number during office hours. For more details visit our website.

#### Financial Aid and Residence Accommodation

DUT does NOT receive sufficient funding for financial aid from NSFAS (the National Student Financial Aid Scheme of South Africa) and it must be noted that financial assistance has been exhausted for 2012. We therefore urge students and parents to find alternate sources of funding including loans from private banks and organisations. Please note that all available accommodation at DUT student residences has been filled.
