

INAUGURAL LECTURE

The Vice-Chancellor and Principal Professor Ahmed Bawa has pleasure of inviting you to the Inaugural Lecture of the Associate Director in the Department of Biomedical and Clinical Technology.

Professor Jamila K Adam, DTech (DUT); MMed SC (UN); BSc Hons (UDW); HED (UNISA)

GUIDING MEDICINE TO INFINITY AND BEYOND

Prior to joining the M L Sultan Technikon in 1984 Prof Adam lectured in the Department of Physiology at University of Kwa-Zulu Natal and thereafter took up position as a Researcher in the Department of Medicine, Natal University. At Durban Institute of Technology she had the opportunity to teach a wide variety of subjects in a number of programmes.

Prof Adam has obtained 16 research awards throughout her career. Her most recent awards include an International fellowship award, the Fellowship of the Association of Biotechnology and Pharmacy (FABAP) which was awarded in December 2012 in recognition for her contribution to medical research. She received 3 DUT research awards for 2012, i.e., Top University women researcher, Top University Publisher of the year and Faculty Researcher of the year. Her research publications include a book, 23 peer reviewed journal articles and 6 conference proceedings. She is a reviewer for six international journals, an editor for two international journals and a reviewer for the National Research Foundation (NRF).

She has supervised research projects of more than 340 B Tech students and 45 postgraduate students from various Institutions in SA. Prof Adam is appointed as an external examiner for postgraduate students both nationally and internationally. In addition to presenting at conferences and workshops, she has been invited to chair sessions or as guest speaker at National and International conferences and workshops. Besides the 7 specialist categories in Clinical Technology (Cardiovascular Perfusion, Nephrology, Neurophysiology, Cardiology, Pulmonology, Critical Care and Reproductive Biology), she has research experience in the fields of Immunology, Toxicology, Microbiology, Physiology, Nutrition, Histology, Cytology and medicinal properties of plants. Until 2013, she has been the Clinical Technology programme co-ordinator, Chairperson of Faculty Research Committee (FRC) and Departmental Research Committee (DRC). Prof Adam serves as chairperson of organising committee for the Institutional Research Day, Vice chairperson of the Health Professional Council of South Africa (HPCSA) Radiography and Clinical Technology Board, member of the Senate, Institutional Research Committee, Higher Degrees Committee, and MUT-Ethics Committee. She is also the chairperson of the Institutional Research Ethics Committee at DUT.
