Introduction

DUT has, as its priority, the activity of teaching and learning, and the Timetabling Policy determines the assigning of teaching time and teaching space in accordance with this priority. The Timetable Office is located within the Department of Student Administration. The role of the Timetabling Office is to administer and produce lecture timetables for the University. The Timetabling Office commence the process of creating the lecture timetable, approximately 4 months prior to the start of the next academic year/semester and work with Academic Department Timetable Co-ordinators until the official timetable is ready for publication. Thereafter, the timetable is published on the University's Timetable webpage and updated every afternoon, so that the most recent and updated information is accessible and available to students, staff, or other relevant stakeholder/s at the University. This guide has therefore been developed to assist staff and students with a step by step process on how to access, view and print the timetable online for modules, groups, staff and venues.

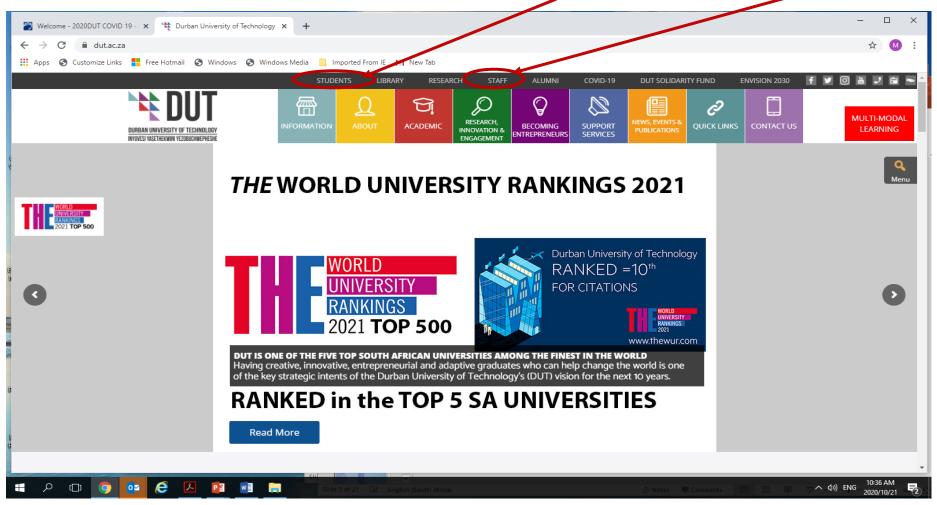

The Lecture Timetable is Accessible Online through your Desktop computer, Laptop, IPad, Smart Phone etc.
