Project Brief

This project involves the design of office spaces for the DUT Business School, located at 105 Stephen Dlamini (Essenwood) Road, Durban. The scope includes 10 single offices and 2 shared offices accommodating 4 people each. The facility also consists of a reception area, a new multipurpose room, a new library area dedicated to MBA students, and a new outdoor space. Existing spaces such as Boardroom 1 and 2, as well as the kitchen, are also included.

All areas will be furnished with new furniture, and this document provides the relevant furniture specifications and information for the project. Quotations for the furniture have been sourced from three different suppliers, presented as **Option 1**, **Option 2**, and **Option 3** for comparison purposes.

Material and Colour Specification

All selected furniture must be in neutral tones, including shades of grey, black, and white. Wood laminate finishes should be in natural walnut or brushed oak. Where stone materials are introduced, they should be specified in white to maintain a consistent and cohesive design palette.

All DUT offices and boardrooms, should adhere to this colour palette. However, faculty offices and boardrooms may introduce their respective faculty colour as an accent within the space.
