Department of Basic Medical Sciences (Faculty of Health Sciences)

POSTDOCTORAL FELLOWSHIP

A Post-doctoral Fellow (PDF) supports research and other activities as specified by the Hosting entity. The Postdoctoral Fellowship Programme aims to provide opportunities for postdoctoral candidates to conduct innovative research, publish, and increase knowledge in the specified expertise. We, therefore, seek candidates who will fulfill the following objectives:

1. To place DUT at the forefront of research and innovation
2. To generate new knowledge and transfer knowledge and skills
3. To enable outstanding doctoral graduates to obtain experience in research and innovation at DUT
4. To provide an opportunity to promising young researchers from different universities to enhance their research skills and expertise
5. To expand on existing research and ideas and to pursue new lines of research
6. To interact with other academics and post-doctoral fellows
7. To emphasise an increase in publication outputs
8. To establish and enhance the South African intellect
9. To develop knowledge for stakeholders such as the government, business, industry and social communities
10. To promote national and international conference attendance by post-doctoral fellows and the presentation of research papers at these conferences.

This advert is specifically seeking applicants with the following research expertise:

- Public Health and/or
- HIV and/or
- Social Determinants of Health and/or
- Epidemiology and/or
- Maternal health

Candidates with Doctorates in Public Health, Health Sciences, Epidemiology, Physiology, or related disciplines are encouraged to apply.
