

BACHELOR OF CHILD AND YOUTH CARE

01 JAN - 31 DEC 2025

Bachelor of Child & Youth Care

NQF Level: 8

SAQA ID: 94178

Qualification Code: BCCYC3

Location: Ritson Campus (Mansfield School: 1st Floor)

Description of the Programme

“Child and youth care work is work with children and youth as whole persons, in order to promote their social competence and healthy development, by participating in and using their day-to-day environments and life experiences and through the development of therapeutic relationships, most importantly with the particular child or youth who is the focus of attention”.

- Anglin, J. 1995. Child and Youth Care: A Unique Profession.
The Child Care Worker, 13(2):10-11. Feb.

The four-year professional Bachelor of Child and Youth Care degree aims to provide students with skills, knowledge and experience of working in a variety of child and youth care settings. The major focus is the development and healing of the child within family, community and other settings. The study, practice and application of knowledge are strengthened through practical training and community projects. These involve the student in the child and youth care worker’s duties related to holistic care, behaviour management, and developmental assessment and programming to optimize the health and well-being of young people and families. The child and youth care worker does not undertake therapy in the traditional sense; rather, she/he has the job of purposefully creating and using a developmental and therapeutic milieu, building a therapeutic relationship with the child, and promoting healing and development through the conscious use of events as they occur in the life-space. The child and youth care worker is not a psychologist, social worker or a teacher, but should be able to work with these professionals on an equal footing within the multidisciplinary team.

Career opportunities

At present, the areas in which learners and graduates work include the following:

Residential child and youth care/treatment centres (e.g. children’s homes, substance abuse programmes)

- State facilities (e.g. places of safety, secure care & special schools)
- Probation programmes
- Street shelters and outreach programmes
- Educare centres
- Community development projects
- Assistant Probation officers in law courts
- Day-care and play-care centres
- Hospitals caring for abandoned children
- Mediators and facilitators in “at risk” communities
- Hostels at residential/educational facilities
- Diversion programmes
- Wilderness training and adventure programmes
- Schools and after-school care programmes
- Youth development programmes
- Intermediaries in court settings

Who Should Apply?

Child and youth care work requires practical people with academic ability, a strong concern for children and youth, and commitment to the development of human beings and society. The emphasis on use of self as a therapeutic tool requires students who are willing to face personal challenges for their own development. The major focus is on children and youth who are marginalised, or at risk of becoming marginalised.

Students require enthusiasm, initiative, creativity, and the ability to be reflective and responsible. Students are expected to engage in a rigorous process of self-development and to commit themselves to ethical standards.

We reserve the right to select applicants. Final selection and placement will be dependent on completing tests and interviews. Applicants are notified of the outcome of the selection process during December.

Selected applicants will be placed in the four-year professional degree programme.

The programme includes care, development, and therapeutic work across the life span with a particular focus on children/youth from birth to 18-21 years of age. The Bachelor of Child and Youth Care is offered on a full-time basis in Durban.
