HANDBOOK FOR 2019

FACULTY OF

ACCOUNTING AND

INFORMATICS

DEPARTMENT OF
AUDITING AND TAXATION

PROGRAMMES:
Diploma: Internal Auditing
Diploma: Internal Auditing Extended Curriculum Programme
Bachelor of Technology: Internal Auditing
Masters Degree in Accounting: Auditing
National Diploma: Taxation
National Diploma: Taxation Extended Curriculum Programme
Bachelor of Technology: Taxation
Masters Degree in Accounting: Taxation
FACULTY VISION

A globally recognised faculty for academic excellence.

FACULTY MISSION

“Developing Leaders for the Information Society”
through:
• Excellence in teaching and learning
• Relevant research and creative innovation
• Social entrepreneurship

FACULTY VALUES

Fairness
We treat people equitably with respect. Our decisions are impartial. We embrace
diversity and inclusion.

Accountability
We accept responsibility for activities, decisions, actions and disclose outcomes in a
transparent way.

Integrity
We enhance our reputation with consistent trustworthy conduct.
VISION
Leading Academic Excellence in Auditing and Taxation.

MISSION
“Developing Auditing and Taxation Professionals”
through
Innovative Teaching and Learning
Pioneering Collaborative Research
Stakeholders Engagement

Values:
To go above and beyond, for one another personifying:

Integrity
(To be honest, fair, trustworthy and credible)

Accountability
(To be transparent, answerable and professional)

Diversity
(To embrace inclusivity and respect for one another)

What is a University of Technology?

A university of Technology is characterized by being research informed than research driven where the focus is on strategic and applied research that can be translated into professional practice. Furthermore, research output is commercialized thus providing a source of income for the institution. Learning programmes, in which the emphasis on technological capability is as important as cognitive skills, are developed around graduate profiles as defined by industry and the professions.

4. PROGRAMME INFORMATION AND RULES

4.1. DIPLOMA: INTERNAL AUDITING, AND NATIONAL DIPLOMA: TAXATION

4.1.1. DIPLOMA: INTERNAL AUDITING

**Diploma: Internal Auditing**
**Programme Code: D11IAU1**

**MINIMUM ENTRANCE REQUIREMENTS**
In addition to the requirements of the General Rules (Rule G7 and G21(b), an applicant must meet the following requirements:

<table>
<thead>
<tr>
<th>Subject</th>
<th>NSC rating</th>
</tr>
</thead>
<tbody>
<tr>
<td>English home language (HL)</td>
<td>3</td>
</tr>
<tr>
<td>OR English first additional language (FAL)</td>
<td>4</td>
</tr>
<tr>
<td>And Mathematics</td>
<td>4</td>
</tr>
<tr>
<td>Mathematics level 3 with Accounting level 4</td>
<td></td>
</tr>
<tr>
<td>OR Mathematical Literacy level 5 with Accounting level 4</td>
<td></td>
</tr>
</tbody>
</table>

Applicants with Mathematics (3) or Mathematics Literacy (5) will need to have Accounting (4).

All prospective applicants that meet the above entry requirements would be ranked according to their English and Mathematics marks obtained. Those applicants who have:
- below 45% for English or below 55% for English (1st additional) or
- below 45% for Mathematics or below 65% for Mathematics Literacy *may be placed* on the extended curriculum programme, as they would be considered under prepared and at risk of not coping with the demands of the regular programme. The extended curriculum programme, through purposeful and structured set of learning experiences will provide these students with the academic foundations necessary for them to succeed on the regular programme.

**National Diploma: Taxation**
**Programme Code: NDTAX3**

**MINIMUM ENTRANCE REQUIREMENTS**
In addition to the requirements of the General Rules (G7 and G21(b), an applicant must meet the following requirements:

Subject NSC Rating
- English home language (HL) 3
- OR English first additional Language (FAL) 4
- And Mathematics level 4
- OR Mathematics Literacy level 5
- OR Accounting level 3 and
- 3 other subjects at level 3 or more (excluding Life Orientation) 4
Applicants with Senior Certificate
Requirements:
- English with a minimum of E (HG) or C (SG)
- Mathematics with a minimum of E (HG) or C (SG)
- Accounting will not be a requirement for an applicant who holds Mathematics with D, or (higher), on the HG, OR B, or (higher), on the SG

</tbody>
</table>

Applicants with TVET colleges NCV entrance
Requirements:
- A level 4 national certificate vocational with the following minimum requirements:
  1. At least 50% in three fundamental subjects including English
  2. At least 60% in three compulsory vocational subjects

Please note that these are the requirements for applicants and they will be ranked according to point system on the ranking code in general rule 7.

4.1.2. SUITABLE CANDIDATE SELECTION
All applicants must be made via the Central Applications Office (CAO) not later than the stipulated date within the CAO handbook. The contact details of the CAO are: Web: www.cao.ac.za

Selection will be based on ranking of applicants who meet the minimum requirements.

4.1.3. REGISTRATION
a. Registration takes place in January and July each year, however no new intake in July.
b. Only students that have been accepted are invited for registration.

DURATION OF COMPLETION OF QUALIFICATION:
NORMAL DURATION:
- Diploma: Internal Auditing – 3 years full-time (no part-time)
- Diploma: Internal Auditing (ECP) – 4 years full-time (no part-time)
MAXIMUM DURATION:
Diploma: Internal Auditing – 5 years full-time (no part-time)
Diploma: Internal Auditing (ECP) – 5 years full-time (no part-time)
The maximum duration is in accordance with Rule G17(2), G21A and G21B. The periods of study at another institution or department will be included in the assessment.

DURATION OF COMPLETION OF QUALIFICATION:
NORMAL DURATION:
National Diploma: Taxation – 3 years full-time (no part-time)
National Diploma: Taxation (ECP) – 4 years full-time (no part-time)

MAXIMUM DURATION:
National Diploma: Taxation – 5 years full-time (no part-time)
National Diploma: Taxation (ECP) – 5 years full-time (no part-time)
The maximum duration is in accordance with Rule G17(2), G21A and G21B. The periods of study at another institution or department will be included in the assessment.

PRE AND CO-REQUISITES
DIPLOMA: INTERNAL AUDITING AND NATIONAL DIPLOMA: TAXATION

- Business Calculations is a pre-requisite for Statistics 2.
- Business Fundamentals I is a pre-requisite for Business Fundamentals 2.
- Business Fundamentals I and II are pre-requisites for Entrepreneurial Spirit.
- Commercial Law I is a pre-requisite for Commercial Law II (Modules 1 & 2).
- Commercial Law II (Modules 1 & 2) are pre-requisites for Corporate Procedures.
- Cornerstone is a pre-requisite for Values in the Work Place.
- Financial Accounting, I (Modules 1 & 2) are pre-requisites for Financial Accounting II (Modules 1 & 2), Auditing II (Modules 1 & 2), Internal Auditing II (Modules 1 & 2), and Taxation 2 (Modules 1 & 2).
- Financial Accounting II (Modules 1 & 2) are pre-requisites for Financial Accounting III (Modules 1 & 2), Auditing III Modules (1 & 2), and Internal Auditing III (Modules 1 & 2).
- Internal Auditing I (Modules 1 & 2) are pre-requisites for Internal Auditing II (Modules 1 & 2), and Financial Accounting II (Modules 1 & 2).
- Internal Auditing II (Modules 1 & 2) are pre-requisites for Internal Auditing III (Modules 1 & 2).
- Managerial Accounting and Finance (Module 1) is a pre-requisite for Managerial Accounting and Finance (Module 2).
- Taxation I is a pre-requisite for Taxation II (Module 1 & 2).
- Auditing II (Modules 1 & 2) are pre-requisites for Auditing III (Modules 1 & 2).
- Business Information Systems I (Modules 1 & 2) are pre-requisites for Business Information Systems II (Modules 1 & 2).
- Cost Accounting I is a pre-requisite for Cost Accounting II (Modules 1 & 2).
DIPLOMA: INTERNAL AUDITING (ECP) AND NATIONAL DIPLOMA: TAXATION (ECP)
In addition to the above pre and co-requisites the following would apply to the Extended Curriculum Programmes (ECP):
• Quantitative Literacy and Accounting Literacy are pre-requisites for a student to progress to their 2nd year of study.

4.1.4. COURSE MARKS
The methods of assessment and calculation of the year mark for each subject will be issued to students with the lecture programme and subject learner guides.

4.1.5. ELIGIBILITY FOR EXAMINATIONS
A student will be permitted to write the final examination in a subject if he / she has obtained a course mark of 40% or more.

4.1.6. PASS REQUIREMENTS
In order to pass an examination, a student must obtain a final mark of 50% in terms of rule G14. This must be read in conjunction with the learner guide for each module to confirm how the final mark is calculated.

4.1.7. SUPPLEMENTARY EXAMINATION
A student may be admitted to a supplementary examination for a module if he/ she has obtained a final mark of at least 45% in terms of rule G13(2).

4.1.8. SYLLABUS
The abridged syllabus for each subject indicated in the instructional programmes is published at the end of this handbook in alphabetical order.

4.2. BACHELOR OF TECHNOLOGY: INTERNAL AUDITING, AND BACHELOR OF TECHNOLOGY: TAXATION

4.2.1. BACHELOR OF TECHNOLOGY: INTERNAL AUDITING (PROGRAMME CODE: BTIAU2)
ENTRANCE REQUIREMENTS
A National Diploma: Internal Auditing or appropriate equivalent qualification or an appropriate Bachelors Degree

PRE AND CO-REQUISITES
Internal Auditing III (Modules 1 & 2) are pre-requisites for Internal Auditing IV (Modules 1 & 2) and Information Systems Auditing IV.

DURATION OF COMPLETION OF QUALIFICATION:
NORMAL DURATION
1 year full-time or 2 years part-time

MAXIMUM DURATION
2 years full-time or 4 years part-time
The maximum duration is in accordance with Rule G17(2), and G23A. The periods of study at another institution or department will be included in the assessment.
4.2.2. BACHELOR OF TECHNOLOGY: TAXATION
(PROGRAMME CODE: BTTAX2)

ENTRANCE REQUIREMENTS
• Where a student has a National Diploma: Accounting, National Diploma: Cost and Management Accounting, National Diploma: Internal Auditing or C.I.S. as entry, status of a National Diploma: Taxation will be conferred.
• Students should have final pass mark of 60% in their major subjects for their National Diploma level.

PRE AND CO-REQUISITES
• Auditing III (Modules 1 & 2) are pre-requisites for Auditing IV
• Taxation II (Modules 1 & 2) are pre-requisites for Taxation III (Modules 1, 2 and 3)

DURATION OF COMPLETION OF QUALIFICATION:
NORMAL DURATION
1 year full-time or 2 years part-time

MAXIMUM DURATION
2 years full-time or 4 years part-time
The maximum duration is in accordance with Rule G17(2), and G23(A). The periods of study at another institution or department will be included in the assessment.

4.2.3. COURSE MARKS
The methods of assessment and calculation of the year mark for each subject will be issued to students with the lecture programme and subject learner guides.

4.2.4. ELIGIBILITY FOR EXAMINATIONS
A student will be permitted to write the final examination in a subject if he / she has obtained a course mark of 40% or more.

4.2.5. PASS REQUIREMENTS
In order to pass an examination, a student must obtain a final mark of 50% in terms of rule G14. This must be read in conjunction with the learner guide for each module to confirm how the final mark is calculated.

4.2.6. SUPPLEMENTARY EXAMINATION
A student may be admitted to a supplementary examination for a module if he/ she has obtained a final mark of at least 45% in terms of rule G13(2).

4.2.7. SYLLABUS
The abridged syllabus for each subject indicated in the instructional programmes is published at the end of this handbook in alphabetical order.
4.3. MASTERS DEGREE IN ACCOUNTING (MACC): AUDITING/ TAXATION

ENTRANCE REQUIREMENTS

In addition to Rule G24 of the General Rules of the DUT, the following shall apply:

The candidate must have been awarded an Honours Degree (New HEQSF) or Post Graduate Diploma qualification in the field of either Financial Accounting, Management Accounting, Taxation or Auditing.

Candidates who have completed an Honours Degree or a BTech qualification in any accounting discipline (as noted above) on the old HEQF, may be considered for the Master’s Degree on condition that they are above to obtain a status for level 8 which may entail additional courses required as determined by the department.

An introductory, interview with the Head of Department will be required and each application will be considered on merit.

INSTRUCTIONAL PROGRAMME

This instructional programme comprises a research project culminating in a dissertation. In their dissertation students must prove that they understand a particular problem in the industry in which they have done research, are able to analyse and set it out logically, are able to arrive at logical conclusions or a diagnosis, and are then able to make proposals for the improvement/the elimination of the problem. The dissertation must comply with the normal general technical requirements and rules with regard to scope, quality and layout per Rule G43.

DURATION OF COMPLETION OF QUALIFICATION:
NORMAL DURATION
Two years full- time and three part-time.

MAXIMUM DURATION
The maximum duration of 3 years full-time or part-time registration, which is in accordance with Rules G17(2), and G24(2). The periods of study at another institution or department will be included in the assessment.

6. ASSESSMENT RULES
Examinations and Continuous Assessment.
Year marks are awarded for tests written (or orals) and assignments during the academic year. The number and duration of subject tests are set out in the subject learner guides issued to students at the first lecture.

7. RE-REGISTRATION RULES
7.1. DIPLOMAS AND NATIONAL DIPLOMAS:
First year of study
Full time students who are enrolled for the first year of study for a National Diploma must pass a minimum of three subjects in order to be re-admitted for further studies.

Re-admission for second and later years of study
All students must pass a minimum of two subjects per annum in order to be admitted but must still meet the maximum time allowed rule.

Appeals
Students may apply with motivation to the Head of Department, in writing, to be re-considered for re-admission. The Head of Department will make a recommendation to the Faculty Board for a decision.

Maximum Time Allowed for Completion of Qualifications
The maximum duration is 5 years of registered study in accordance with Rule G17(2), G21A and G21B. The periods of incomplete study at another institution or department will be included in the assessment.
7.2. BACHELOR OF TECHNOLOGY:
Re-admission to later years of study
Full time students who are enrolled for the first year of study for a Bachelor of Technology must pass a minimum of three subjects in order to be re-admitted for further studies.

Appeals
Students may apply with motivation to the Head of Department, in writing, to be re-considered for re-admission. The Head of Department will make a recommendation to the Faculty Board for a decision.

Maximum Time Allowed for Completion of Qualifications
The maximum duration is 2 years for full-time and 4 years for part-time registrations in accordance with Rule G17(2), and G23A. The periods of incomplete study at another institution or department will be included in the assessment.

7.3. MASTERS DEGREE IN ACCOUNTING:
Re-admission to later years of study
Students who are enrolled for the first year of study for a Masters Degree in Accounting must pass Research Project and Dissertation (Full Year) (RPCA5001) in order to be re-admitted for further studies.

Appeals
Students may apply with motivation to the Head of Department, in writing, to be re-considered for re-admission. The Head of Department will make a recommendation to the Faculty Board for a decision.

Maximum Time Allowed for Completion of Qualifications
The maximum duration is 3 years for full-time and part-time registrations which is in with Rules G17(2), and G24(2). The periods of incomplete study at another institution or department will be included in the assessment.
8. SUBJECT CONTENT
8.1. DIPLOMA: INTERNAL AUDITING AND NATIONAL DIPLOMA: TAXATION

Abridged Syllabus

AUDITING II (040105322) Module 1
Understand the responsibilities, functions and qualities of the auditor.
Understand the concepts and principles relevant to the audit.
Understand the procedures for obtaining audit evidence.

AUDITING II (040105322) Module 2
Understand the framework for internal control and internal control evaluation.
Understand the framework for internal audit.
Awareness of the process of reporting audit findings.

AUDITING III (040105403) Module 1
Preparation of audit working papers
Plan and conduct the audit

AUDITING III (040105403) Module 2
Audit of business cycles
Identify and evaluate controls in the Computer Information Systems

BUSINESS CALCULATIONS (For new DIPIA)
Perform basic mathematical and financial calculations that arise in the business environment as a means in assisting in decision-making
collect, summarize and analyse data in the business environment to assist in decision-making

BUSINESS CALCULATIONS (16080512) Module 1
Basic mathematics and financial calculations
Summarising and analysing data

BUSINESS FUNDAMENTALS 1 (For new DIPIA)
Manage principles of key business aspects such as time and stress within your everyday and academic life.
Develop and apply written and verbal skills for effective interpersonal, group and organisational communication within business context.
Identify and use information from a variety of sources ethically and responsibly.
Demonstrate an awareness of cultural, social justice issues and ethics in the business world.
Apply basic business literacy concepts small businesses.

BUSINESS FUNDAMENTALS 2 (For new DIPIA)
Conduct independent research using several methods & sources.
Develop a sense of environmental awareness & responsibility through exposure to trends in sustainable environmental practice.
Explain the environmental impact & ethical implications of decisions taken at the organisational level.
Use established conventions of academic writing to prepare a basic business plan.
Explain perspectives on value, respect and appreciate diversity & difference in local, regional, national and global context.
Develop an awareness of link between technology & society.

**BUSINESS INFORMATICS (For new DIPIA)**
Discuss and apply knowledge of information systems in businesses and organizations.
Analyze information technology components pertaining to general hardware and software components, data communications and networking and databases.
Discuss the categories, classes and applications of various business information systems.
Perform a basic analysis of the system development life cycle (SDLC) model for developing a system or project.
Discuss describe emerging trends, privacy, legal, security, health and ethical issues in information systems.

**BUSINESS INFORMATION SYSTEMS I (60219312) Module 1**
Understand the function of the hardware elements and software of the computer.
Use the computer as a storage management tool.
Use the computer as a word-processing tool.
Use the computer as a research and communication tool.

**BUSINESS INFORMATION SYSTEMS I (60219312) Module 2**
Understand the role of the computer in an e-commerce trade cycle.
Use the computer as a word-processing tool.
Use the computer as a spreadsheet tool.
Use the computer as an accounting tool.

**COMMERCIAL LAW I (For new DIPIA)**
Explain the basic framework of the South African Legal system, including the sources of law and the judiciary;
Interpret and apply the general principles of the law of contract;
Interpret and apply the law relating to the contract of sale;
Explain the establishment of representation and its effect in a contract of agency and discuss the extent of liability of an agent;
Explain and apply the legal principles governing delictual liability and unjustified enrichment.

**COMMERCIAL LAW I (130309912)**
Understand the SA legal framework
Understand the rules relating to the Interpretation of Statutes
Understand and apply knowledge of principles relating to the Law of Contract
Understand the legal principles relating to Contract of Sale
Understand and apply knowledge of principles relating to the Law of Agency

**COMMERCIAL LAW 2 (M1) (For new DIPIA)**
Outline the law relating to a contract of lease and apply the information to practical situations and find solutions to problems;
Implement the legal provisions relating to the various forms of payment, including negotiable instruments, electronic data interchange and electronic fund transfers, as well as the legal implications of e-commerce and apply the information to practical situations and find solutions to problems;
Analyse the law relating to insurance and apply the information to practical situations and find solutions to problems;
Explain the law relating to the various forms of security and apply the information to practical situations and find solutions to problems.
Implement the legal provisions set out in the National Credit Act 34 of 2005 and the Consumer Protection Act 68 of 2008, and apply the information to practical situations and find solutions to problems;
Outline the provisions relating to employment contracts, the Basic Conditions of Employment Act 75 of 1997, the Occupational Safety Act 85 of 1993 and related labour legislation;
Outline the principles relating to the various intellectual property rights in South Africa; and
Outline the principles governing sequestration and insolvent estates in so far as they relate to the rights of a creditor.

**COMMERCIAL LAW 2 (M2) (For new DIPIA)**

Explain the nature, legal status and administration of business organisations
Explain the law relating to the financing and management of companies limited by shares.
Understand the capital maintenance principles and the purpose for which shares are issued, redeemed or purchased and the principles of corporate finance in general.
Explain the appointment, retirement and removal of directors and other prescribed officers of the company.
Understand the concept of “group of companies”, fundamental transactions and takeovers.
Explain the business rescue and compromise proceedings, and remedies, South African enforcement agencies and alternative dispute resolution processes.

**COMMERCIAL LAW II (130310022) Module 1**

Know and understand the most important principles and sections of the Credit Agreements Act 75 of 1980
Understand the objectives of the Usury Act of 1968
Understand the contract of lease
Understand the legal principles relating to Negotiable instruments
Understand the law relating to Insolvency
Understand and apply the principles relating to the different forms of security
Understand and apply principles relating to law of Insurance

**COMMERCIAL LAW II (130310022) Module 2**

Know and apply the law relating to companies.
Know partnerships as business form.-

**COMMUNICATION 1 (059900512)**

Effectively apply communication principles to a variety of communication activities, contexts and resolving problems.
Demonstrate verbal and written communication skills.

**CORNERSTONE (For new DIPIA)**

Identify and critically interrogate particular constructions about themselves and others in the context of a diverse society.
Apply communication practices appropriate to higher education.
Demonstrate values of respect, accountability and responsibility in relation to a just society and a sustainable environment.
CORPORATE PROCEDURES (For new DIPIA)
Explain, interpret and apply the general principles of common law meetings;
Understand and apply the principles and processes applicable to the different types of meetings in the corporate world
Understand, interpret and apply the procedure for the formation and managing of companies;
Evaluate, analyse and interpret the manner in which Stock Exchange operates and apply such knowledge in the financial market; and
Critically evaluate and analyse the interaction of corporate governance with business ethics and company law, and apply such knowledge to the corporate environment.

COST ACCOUNTING I (040140412)
Understand the basic principles of cost classification and terminology
Define and understand the different terms and concepts in respect of stock holding and administer different stock systems.
Administer remuneration systems.
Classification and analysis of overheads and allocation of overheads by means of predetermined rates.
Understand the cost flow in a manufacturing concern determine cost of manufactured products and services.
Use the Cost-volume-profit analysis as a management tool.
Method of Evaluation
Year Mark 40% and one examination of three hours 60% = 100%

COST ACCOUNTING II (040140522) Module 1
Administer an Integrated Accounting system and a Cost Ledger Accounting system.
Operate a basic job-costing system.
Administer contract accounts.
Draw up fixed, flexible and cash budgets.

COST ACCOUNTING II (040140522) Module 2
Demonstrate competency in the operation of process costing systems with equivalent units and normal and abnormal losses.
Demonstrate competency in the operation of process costing systems with joint and by products.
Demonstrate competency in preparing income statements according to the direct and absorption costing methods.
Demonstrate the ability to use pricing decisions.
Demonstrate the ability to implement a Standard Costing, system.

ECONOMICS I (220205612) Module 1
Discuss the study of the economic problem and show how it is manifested in the different participants in the economy.
Discuss different ways in which societies can solve this economic problem through economic systems.
Discuss, illustrate and analyse the individual, as well as market, demand and supply curves and discuss price determination and equilibrium in the market.
Calculate, analyse and discuss all related aspects regarding the price elasticity of demand and supply, income elasticity and cross elasticity.
Determine consumer equilibrium using the utility approach.
Determine consumer equilibrium using the indifference approach.
Define, discuss and calculate the concepts regarding the production function of a producer as well as different costs of the producer over the short-and long-term.
Differentiate between the different revenue concepts, discuss, and illustrate the profit maximisation in a perfect competitive market.
Determine profit maximisation in an imperfect competitive market for the various market forms.
ECONOMICS I (220205612) Module 2
Discuss international economic markets by referring to international trade, balance of payments, restrictions to trade and international trade organizations. Analyse the role of government in the economy and evaluate the application of fiscal policy. Analyse the monetary sector’s role in the economy and evaluate the application of monetary policy by the central bank. Differentiate, define, calculate and interpret national income accounting figures. Derive and present graphically the macro-demand curve using the components of total expenditure. Analyse and evaluate the two major causes of economic instability, namely unemployment and inflation. Identify current economic issues and indicate how to address it.

ENTREPRENEURIAL SKILLS 1 (40510912)
Develop an understanding of the basic business and economic principles by identifying and justifying the relationship between business and economic principles. The basic functions of the enterprise and how they relate. Create, maintain and enhance a culture of entrepreneurship.

ENTREPRENEURIAL SPIRIT (For new DIPIA)
Express ideas and technical details clearly via written reports, communications media, and speech. Show an ability to plan and identify appropriate resources and manage a project through to completion. Demonstrate creativity and innovation by working productively in a laboratory or field setting both as an individual and as a group. Develop a perspective of the global marketplace. Engage with contemporary ICTs for example social media and web technologies.

FINANCIAL ACCOUNTING 1 (M1) (For new DIPIA)
Identify the elements and the effect of transactions on the accounting equation. Record transactions within the accounting system from source document to conclusion in the financial statements. Prepare year end procedures including adjustments and closing entries. Enter transactions using both the perpetual and periodic inventory systems including the recoding of VAT. Draw up a manufacturing statement to calculate the cost of manufacture of finished goods. Reconcile the General Ledger Bank account with the Bank Statement.

FINANCIAL ACCOUNTING 1 (M2) (For new DIPIA)
Prepare a set of financial statements for a sole trader using correct disclosure. Record changes in assets especially the purchase, depreciation and disposal of property, plant and equipment. Present liabilities in the financial statements showing non-current and current portions. Understand the difference between the equity of a sole trader, partnership, close corporation and a company. Prepare accounting records for partnerships with respect to profit sharing, admission of a partner and the liquidation of a partnership. Record the issue of share capital in a company and its effect on the equity of a company. Prepare the financial statements of a close corporation.
FINANCIAL ACCOUNTING I (0401092120) Module 1
Financial Reporting as specified in IAS
Identify overall objectives of Financial Reporting
Define elements of financial statements related to measurement
Define and advise the qualitative characteristics of financial information
Identify and apply recognition and measurement
Explain the need for a conceptual framework
Explain the meaning of GAAP
Prepare basic financial reports

Practical
Practical work shall consist of tutorial and self-study assignments on all sections of the syllabus.

Method of evaluation
Year Mark 40% and one examination of 3 hours 60% = 100%

FINANCIAL ACCOUNTING I (0401092120) Module 2
Statement of Changes in equity:
Sole Trader - changes in capital
Partnership
Close Corporations
Company
Change in ownership:
Sole trader - dissolution of entity
Partnership - entry and retirement
Close Corporations - entry of new member
IAS Statements
IAS 1
IAS 2
IAS 16
IAS 36

Practical
Practical work shall consist of tutorial and self-study assignments on all sections of the syllabus.

Method of evaluation
Year Mark 40% and one examination of 3 hours 60% = 100%

FINANCIAL ACCOUNTING II (M1) (For new DIPIA)
Display a thorough knowledge and application of the Conceptual Framework
Prepare and present financial statements in compliance with Generally Accepted Accounting Practice and International Financial Reporting Standards.
Display a thorough understanding of maintaining proper records pertaining inventory for different types of entities (i.e. Service, retail and Manufacturing).
Display an understanding of the treatment of shares in accordance with the new companies act of 2008.

FINANCIAL ACCOUNTING II (M2) (For new DIPIA)
Display a thorough knowledge and application of the Conceptual Framework
Prepare and present financial statements in compliance with Generally Accepted Accounting Practice and International Financial Reporting Standards
Display a thorough knowledge of the preparation of the Statement Cash Flows.
Demonstrate an understanding of accounting for Foreign Exchange Transactions.
Demonstrate an ability to perform the annual indicator reviews and accounting for assets impairment losses.
FINANCIAL ACCOUNTING II (0401093220) (Module 1)
IAS 1 -Presentation of Financial Statements
IAS 2 -Inventory
IAS 16 -Property, Plant & Equipment
IAS 36 -Impairments of Assets
IAS 10 -Events after the balance sheet
IAS 18 -Revenue
IAS 21 -Foreign exchange
IAS 38
IAS 37 -Provisions and contingencies
Practical
Practical work shall consist of tutorial and self-study assignments on all sections of the syllabus.
Computer applications
Method of evaluation
Year Mark 40% and two 3-hour examinations 60% = 100%

FINANCIAL ACCOUNTING II (0401093220) (Module 2)
IAS 1 -Presentation of Financial Statements
IAS 2 -Inventory
IAS 16 -Property, Plant & Equipment
IAS 36 -Impairments of Assets
IAS 10 -Events after the balance sheet
IAS 18 -Revenue
IAS 21 -Foreign exchange
IAS 38 -Intangibles
IAS 37 -Provisions and contingencies
IAS 7 -Cash Flow Statements
Practical
Practical work shall consist of tutorial and self-study assignments on all sections of the syllabus.
Computer applications
Method of evaluation
Year Mark 40% and two 3-hour examinations 60% = 100%

FINANCIAL ACCOUNTING 3 (M1) (For new DIPIA)
Display an integrated knowledge and application of the Conceptual Framework
Prepare and present financial statements in compliance with the appropriate accounting standard, including analysis and interpretation of statement of cash flows
Analyse, calculate and disclose basic earnings per share, dividends per share and headline earnings per share
Demonstrate an understanding of the differences between operating and finance leases, and account and disclose in terms of the appropriate accounting statement.
FINANCIAL ACCOUNTING 3 (M2) (For new DIPIA)
Demonstrate the purpose of financial reporting by analysis and interpretation techniques of financial statements
Prepare group/consolidated financial statements in compliance with regulatory and accounting frameworks and standards.
Utilise various valuation techniques to value securities
Analyse, critically reflect and address complex problems relating to changes in capital structures of an entity in compliance with regulatory requirements.

FINANCIAL ACCOUNTING III (40109403) Module I
Identify overall objectives of financial reporting, the specific information needs of equity investors, and the general information needs of other users.
Define the elements of financial statements related to the measurement of financial position and performance and apply to the presentation of financial reports.
Define and advise the qualitative characteristics financial information
Identify and apply recognition and measurement criteria to financial statements
Explain the need for a conceptual framework and for standards of financial reporting.
Identify the statutory disclosure requirements, and explain the meaning of fair presentation

Method of evaluation
Year Mark 40% and two 3-hour examinations 60% = 100%

FINANCIAL ACCOUNTING III (40109403) Module 2
Apply techniques to account for associates, subsidiaries and joint ventures
Incorporate changes in the form or capital structure of an entity in the financial statements in accordance with the objectives to be achieved and the legal constraint
Demonstrate the purpose of financial reporting by applying analysis and interpretation techniques to financial statements

Method of evaluation
Year Mark 40% and two 3-hour examinations 60% = 100%

INTERNAL AUDITING I(M1) (For new DIPIA)
Understand the definition of internal auditing and the purpose of internal auditing
Understand the use of the IPPF and be able to apply it in any given situation: the Code of Ethics and Standards.
Understand the interaction with other role players and their duties and responsibilities as well as the responsibility of an internal auditor.

INTERNAL AUDITING I(M2) (For new DIPIA)
Understand the various organizational governance systems.
Understand the concept of ethics and organizational governance.
Understand the steps to develop business ethics programs and policies and the role of internal auditing.
Understand the statutory matters which relates to business.

INTERNAL AUDITING 2 (M1) (For new DIPIA)
Identify with the process of managing an internal audit activity.
Apply the internal audit engagement process
Identify risk and controls including enterprise risk management processes and structures.
INTERNAL AUDITING 2 (M2) (For new DIPIA)
Identify controls in a manual system and computerised environment
Apply knowledge of internal controls to the various business cycles.
Comprehend and interpret the document flow in the Revenue and Receipts Cycle
Comprehend and interpret the document flow in the Acquisition and Payments Cycle
Comprehend and interpret the document flow in the Inventory and Production Cycle
Comprehend and interpret the document flow in the Investment Cycle
Comprehend the Finance and Investment Cycle

INTERNAL AUDITING 3 (M1) (For new DIPIA)
Demonstrate an understanding and evaluate the types of engagements internal auditors perform, the key activities involved in planning and performing an assurance engagement and reporting the engagement outcomes.
Select an appropriate method and apply knowledge of it to the planning process in practical scenarios.
Demonstrate an ability to develop appropriate processes of information gathering in the acquisition of audit evidence
Identify, analyse, evaluate, critically reflect on and address risks and weaknesses in a business process and apply recommendations and/or conduct appropriate audit procedures.

INTERNAL AUDITING 3 (M2) (For new DIPIA)
Demonstrate an understanding of working papers and select the appropriate working paper.
Identify, analyse and develop working papers using appropriate academic and professional formats and guidelines.
Compose a well-formed report and communicate audit findings in an appropriate professional context.
Demonstrate an understanding of, and identify, fraudulent activities.

MANAGERIAL ACCOUNTING AND FINANCE (M1) (For new DIPIA)
Understand the basic principles of cost classification and terminology.
Define and understand the different terms and concepts in respect of stock and administer different stock systems.
Administer remuneration systems.
Classification and analysis of overheads and allocation of overheads by means of predetermined rates.
Understand the cost flow in a manufacturing concern determine cost of manufactured products and services.
Use the Cost-volume-profit analysis as a management tool.

MANAGERIAL ACCOUNTING AND FINANCE (M2) (For new DIPIA)
Demonstrate competency in the operation of process costing systems with equivalent units and normal and abnormal losses.
Demonstrate competency in operation of process costing systems with joint and by products
Enable understanding and applications of planning, budgeting and control techniques.
To enable students to understand and apply how financial and other data is analysed in order to provide information for decision making
Demonstrate the ability to implement a standard costing system
PRINCIPLES OF MICRO ECONOMICS (For new DIPIA)
Define Economics, the economic problem and its implications.
Use a graphical model to explain how a market economy works, identify the participants in this economy and describe the interrelationships between them.
Use demand and supply diagrams to explain how price and output are determined in free and regulated goods markets.
Explain the concept of elasticity and its application in business decisions.
Use demand and supply diagrams to explain how wages and employment are determined in the perfect and imperfect labour markets.
Analyse the cost and revenue structure of a profit maximizing firm.
Evaluate the decisions of firms in perfect and imperfect market structures, both in the short-run and the long-run periods.

PRINCIPLES OF MACRO ECONOMICS (For new DIPIA)
Use appropriate models to explain how the macro-economy operates.
Explain macroeconomic objectives and their measurement.
Apply the relevant quantitative analysis to measure the relevant economic indicators in the macro-economy.
Explain the role of the monetary sector within the macro-economy.
Discuss the role of the government within the mixed economic system.
Explain the interaction between the domestic economy and the foreign sector (international sector).

STATISTICS 2 (For new DIPIA)
Perform financial calculations in the business environment as a means of assisting in decision making.
Perform the forecasting of future levels of activities by means of time series analysis and linear regression and correlation analysis in the business environment to assist in decision making.
Determine the reliability and certainty of generalizing sampling findings from a survey to estimate parameters in the target population through probability concepts and probability distributions in the business environment to assist in decision making.
Generalize sample findings to their target population through statistical estimation and hypothesis testing in the business environment to assist in decision making.

TAXATION 1 (For new DIPIA)
Determine the components of gross income,
Identify and apply all the special inclusions for individuals,
Determine which incomes are exempt for individuals,
Apply the general deduction formula, for individuals,
Compute the tax due by or due to an individual,
Calculate the value of fringe benefits received for an individual,
Apply and discuss Capital Gains Taxation in a relation to individuals
Complete the tax return for an individual

TAXATION 1 (040100512)
Establish what taxable income is
Determine and calculate the taxation of persons other than companies
Apply the provisions relating to non-resident taxpayers
Determine and calculate employees’ tax and provisional tax
Identify and value fringe benefits and allowances
TAXATION 2 (M1) (For new DIPIA)
Demonstrate and apply integrated knowledge of general and special tax deductions and related allowances and provisions.
Identify, analyse and calculate tax liability
Prepare and complete appropriate and well-formed tax returns in compliance with legislation
Understand and identify the various legal entities and the tax implications for those entities

TAXATION 2 (M2) (For new DIPIA)
Compute the value added tax payable or refundable by a vat registered vendor
Identify the situations for registering as a VAT vendor.
Determine situations where VAT is being avoided or evaded.

Select, measure, classify and report accounting data.
Select and report non-financial data relevant to risk.
Financial reports for different legal forms of business entity.
Different characteristics of equity for different forms of entity.
Various bases of measurement.
Current and future developments.
Changes in the form of capital structure of an entity.

INTERNAL AUDITING IV (040110806) (Module 1)
Internal auditing department.
Management and controlling of internal audit assignments.
Fraud and forensic auditing.
Perform and manage audits, performance measures, and related frameworks.
Perform and manage value for money auditing.

INTERNAL AUDITING IV (040110806) (Module 2)
Risk management.
Evaluation of internal controls.
Companies Act.
Internal audit reporting.
Computer information systems audit.

TAXATION III (040140803) (Module 1)
Do a tax credit.
Understand the concept of double tax agreements.
Understand and apply international tax principles.

TAXATION III (040140803) (Module 2)
Interpretation of tax law.
**TAXATION III (040140803) (Module 3)**

Determine and calculate the taxation of persons other than company’s trusts, deceased estates and insolvent estates.

Determine and calculate donations tax.

Determine and calculate the taxation of company’s dividends, STC unbundling and group rationalization.

Identify the special provisions.

Understand the concept of tax avoidance.

Comply with the general provisions.

**RESEARCH METHODOLOGY (0229900012)**

Basic orientation.

Tools of research.

Problem identification and development.

Review of the related literature.

Planning the research proposal.

Instrumentation.

Writing the proposal.

Presenting the results of research.

Working with a supervisor/promoter.

Statistics.

**INFORMATION SYSTEMS AUDITIING IV (ISAU401)**

Understanding of Information Systems

Knowledge of different business systems

Knowledge at an introductory level of hardware, networks and telecommunication.

Ability to list and categorise computer hardware.

**ADVANCED MANAGEMENT COMMUNICATION SKILLS 9AMCS201**

Learners are able to work effectively in groups to complete career-related tasks effectively, us:

- group task functions
- group maintenance functions
- group leaders
- Learners are able to:
- identify
- define
- key competences of advanced business communication and advanced business procedures.
- Learners are able to apply key competences of advanced business communication namely:
- persuasion
- negotiation and conflict management
- intercultural communication and diversity management in work-related scenarios.
MANAGEMENT ACCOUNTING III (40140603) Module 1

Explain, calculate, prepare and evaluate fixed and flexible operational and cash budgets

Prepare budget reports reflecting actual against budget

Discuss the use of budget reports to evaluate performance

Explain the behavioural implications of planning and budgeting

Explain the use of IT in the budget process

Analyse, calculate and interpret operational variances

Prepare reports using a range of benchmarks and evaluate the results

Explain the behavioural implications of standard costing

Explain, calculate, apply and compare different group incentive schemes

Discuss and apply the use of advanced stock control methods

Use activity based costing in cost determination

**Method of evaluation**

Year Mark 40% and one 3-hour examination 60% = 100%

MANAGEMENT ACCOUNTING III (40140603) Module 2

Measuring relevant costs for decision-making

Apply and evaluate short-term decision-making techniques

Apply and discuss the experience and learning curve

Apply and discuss the linear programming model

Explain and apply the use of decision trees

Explain and apply the use of network analysis and PERT analysis

Explain the capital budgeting process

Evaluate projects using investment appraisal techniques, including, under conditions of capital rationing

Evaluate alternative investment appraisal techniques

Explain the relevance of qualitative factors

Prepare project cash flows that take account of taxations and inflation

Evaluate mutually exclusive projects with unequal lives

**Method of evaluation**

Year Mark 40% and one 3-hour examination 60% = 100%

8.3. MASTERS DEGREE IN ACCOUNTING

AUDITING AND TAXATION

Abridged Syllabus

Research topic within the discipline

E&OE
