I.1 Undergraduate Scholarship: For New Students (First Academic Period)

This award is made to first year full-time South African students who have obtained excellent results in the National Senior Certificate in the preceding year which takes the form of a tuition fee remission as follows:

- 1.1.1 A New student who has obtained a National Senior Certificate with an aggregate of 80% or higher shall qualify for a 100% remission of tuition fees for the first year of registration (subject to 10.1.3 below).
- 1.1.2 A New student who has obtained a National Senior Certificate with an aggregate of between 70% - 79% shall qualify for a 50% remission of tuition fees for the first year of registration, (subject to 10.1.3 below).

Important Notes

- 1.1.3 The calculation of the aggregate percentage is made by the DUT, and is based on the sum total of the percentages achieved for individual subjects (excluding Life Orientation) divided by the total number of subjects taken. Where a student has taken more than seven subjects, the aggregate percentage of the six highest subjects (excluding Life Orientation) is calculated.
- 1.1.4 Only students who have obtained the National Senior Certificate in one sitting qualify for this award. Subjects for whom 'exemptions' are granted towards the National Senior Certificate will not be eligible for this award. Matriculants who took a gap year/s after their final school year will not be considered for this award.
- 1.1.5 Should a recipient of the scholarship withdraw from studies in the year for which the scholarship is granted, the full scholarship becomes payable to the Institution.
- 1.1.6 Students who require and obtain exemption/s for admission to a DUT programme will not be eligible for this award.
- 1.1.7 The award is made for the first and only undergraduate study (eg. one diploma only).

1.2. UNDERGRADUATE SCHOLARSHIP AWARD SCHEME - FOR RETURNING STUDENTS (AFTER YEAR I/SEMESTER I)

This award is given to full-time, second and later year/semester South African students who obtain excellent results in the various levels of undergraduate study, and takes the form of a tuition fee remission as follows:

- 1.2.1 A returning student who achieved distinctions as final results for all subjects for the previous year/level of study on the first attempt, and provided that the full curriculum was taken and passed, shall qualify for a full remission of tuition fees for the subsequent higher level of study.
- 1.2.2 A returning student who has achieved an overall pass with distinction (average of 75% and above, incl. rounding off) for the previous year/level of study on the first attempt and provided that the full curriculum was taken and passed, shall qualify for a 50% remission of tuition fees for the subsequent higher levels of study.

NB: Performance in the Experiential Training Component is not considered in the above cases.

Explanatory Notes

- 1.2.2..1 The term 'subsequent level of study' as used in this policy, shall mean: the subsequent year of study, if the student is pursuing an annual programme of study.

the first semester following the final examination in which the student obtained the qualifying distinctions/overall pass with distinction for all the subjects, if the student is pursuing a semesterised course of study.

(To qualify for the remission of fees for the second semester, the student must achieve the qualifying distinctions/overall pass with distinction for all the subjects in the first semester).

The semester following the co-operative education or experiential training component, in the event that a student is placed in industry for this purpose at the beginning of the year/semester following the final examination in which the student obtained the qualifying distinctions/overall pass with distinction for all institutional offerings. Should a student achieve the qualifying distinctions/overall pass for the third year or final semester of the national diploma, such a student is entitled to a remission of fees for the B Tech programme for that year/semester provided the student registers for the full curriculum of the B Tech programme on a full time and part-time basis.

PLEASE NOTE: A B Tech student who registers for part of the programme i.e. part-time over two years is only entitled to the remission of the part-time tuition fees for the first year/semester of study if he/she qualified for the award in his/her third year/semester. For students who receive qualifying distinctions/overall pass with distinction for all subjects in the B Tech programme, the student is advised to contact the Research Department to enquire about further incentives for the M Tech programme.

- 1.2.2.2 Should the student register for a combination of semester and annual subjects in the subsequent level of study, the remission shall apply to the annual subjects and to the first semester of the subsequent level of study only.
(To qualify for the remission of fees for the second semester, the student must achieve the qualifying distinctions/overall pass with distinction for all the subjects in the first semester.)
- 1.2.2.3 The onus is on the student to establish whether he/she qualifies for a remission of fees at the time of student registration.
- 1.2.2.4 'Exemption' subjects do not qualify for the purposes of determining whether a full curriculum is taken, whether such exemptions are granted from the DUT or any other institution.
- 1.2.2.5 Should a recipient of the scholarship withdraw from studies in the year/semester for which the scholarship is granted, the full scholarship becomes payable to the Institution.

1.3 Dean's Merit Award

1.6 Merit Award for Students Who Receive Other Bursaries or Scholarships

- 10.6.1 The onus is on the student to declare the receipt of any outside bursaries/loans when applying for a DUT scholarship in the first instance. Failure to do this could result in any future scholarship awards payable to the student being forfeited.
- 1.6.2 The remission of fees as described in the above awards does not apply to students who are in receipt of any scholarship (NRF) or bursary which covers the full amount that the student qualifies for in terms of this policy and which is ear-marked for the payment of tuition fees. A merit award is made however, to such students who otherwise meet the criteria for a DUT scholarship award, and this shall take the form of:

GENERAL RULES FOR ALL INSTRUCTIONAL PROGRAMMES

G1 Definitions and Legal Force of Rules:

Act means the means the Higher Education Act 1997 (Act 101 of 1997), as amended.

Assessment is the structured process for gathering evidence and making judgments, either formative or summative, about a student's performance. Formative judgments provide the student with guidance on how to improve on their performance prior to final assessment, at which point a summative judgment of pass/fail is made.

A subject which is **complementary** to another is one for which a student must register and write all test and examinations but not necessarily pass, prior to, or simultaneously with, that other subject.

A **co-requisite subject** is one that must be passed prior to, or simultaneously with, another subject before a credit will be given for that latter subject.

Council means the Council of the Institution.

A **credit** is given for every subject in accordance with its importance, its scope and the time to be spent on it. The credit value of each subject is therefore in direct proportion to its scope and is expressed to the third decimal place, e.g. 0,025 credits. A complete full time instructional programme involving a full year's academic study represents one credit.

Equivalent - insofar as it refers within the G-Rules to the admission requirements of the National Higher Diploma, Bachelor in Technology Degree, Master's Diploma in Technology, Master's Degree in Technology and Doctor's Degree in Technology - means a complete or incomplete qualification equal in academic value or academic importance.

A **final level** subject is one with a SAPSE code ending with 03 for National Diploma, 06 for National Higher Diploma and B. Tech Degree and 07 for M. Tech Degree.

Formal Courses/Instructional Programmes: Senate approved courses/instructional programmes of at least one semester/six months full-time equivalent duration can either be state approved subsidy generating courses/instructional programmes or self-funding approved courses/instructional programmes registered with the national qualifications authority.

The **Higher Education Qualifications Sub-Framework (HEQSF)**, effective from December 2012, is a policy which specifies the minimum legal aspects of higher education formal qualifications in South Africa and how these qualifications fit within South Africa's overall National Qualifications Framework (NQF).

The formal qualifications offered by the Durban University of Technology (DUT) comply with all legal requirements stipulated by the Department of Higher Education and Training (DHET). These include their accreditation by the Higher Education Qualifications Council (HEQC) and registration on the NQF by the South African Qualifications Authority (SAQA).

The DUT is in the process of aligning existing formal qualifications with the HEQSF. This process is being followed by all South African higher education institutions as a legal requirement and will take these institutions a number of years to complete. DUT gives the assurance that the status and value of DUT qualifications will in no way be adversely affected during this transitional period and beyond.

The **Institution** refers to the Durban University of Technology.

Institutional Rules means the Rules of the Institution as approved by Senate and/or Council.

GI (cont)

A **module** is a unit of study which:

- (i) is evaluated in a manner determined by the Institution;
- (ii) contributes a certain value to the total credit requirements for the given year/semester of an instructional programme;
- (iii) is started, completed and evaluated in its entirety within part of a year/semester;
- (iv) may have prerequisites; and
- (v) has a credit value which determines when a student has complied with all the requirements of an instructional programme.

Non-subsidised programmes are:

Self-supporting programmes which are offered by the Institution that are not subsidised by the State and have been approved as follows:

- 120 contact hours or less, by Faculty Board;
- greater than 120 contact hours and less than or equal to 360 contact hours, by Senex (via Faculty Board);
- more than 360 contact hours, by Senate (via Faculty Board)

A **prerequisite** subject is one that must be passed before a student may register for one or more further subjects as specified in any departmental handbook. This includes a subject which continues from one level to the next higher level.

Recognition of Prior Learning (RPL) means the assessment of an applicant's previous non-formal and informal learning and experience to determine the extent to which this meets the required learning outcomes, competency outcomes, or standards for entry or access into a specified level of study at the University. A variety of assessment methods is used to determine the relevance, depth and extent of an applicant's prior learning.

Report 150 means the General Policy for Instructional Programmes of the Department of Higher Education and Training.

Senex means the Executive Committee of Senate.

Statute means the DUT Statute.

A **subject** is an identifiable unit of study which:

- (i) is evaluated in a manner determined by the Institution;
- (ii) contributes a certain value to the total credit requirements for the given year/semester of an instructional programme;
- (iii) may have prerequisites;
- (iv) has a credit value which is used to determine when a student has complied with all the requirements of an instructional programme; and
- (v) extends over a whole year/semester with a minimum of one contact period per week over the whole year/semester and an examination conducted during a specific examination period at the end of the year/semester (except in the case of continuous assessment). Rule G28 is the only G-Rule applicable to subjects categorized as experiential learning. Refer also to departmental handbooks.

Subsidised instructional programme/subjects are those funded by the State.

A **substitute module** is a module (or subject) that is equivalent to another module as far as a pre-requisite is concerned.

- (iv) If, as a result of a re-mark, an examination mark is decreased and a student is thereby no longer eligible for a previously granted supplementary examination, the entry for the latter will be cancelled and the prescribed fee refunded.
- (v) The result of a re-mark application is final and no further communication in respect of it will be entered into by the Institution.

PROCESS FOR DEALING WITH STUDENT ISSUES

(Approved by Senate: 08 December 2004)

The Durban University of Technology (DUT) is committed to maintaining and enhancing the quality of the learning experience of students and to securing and safeguarding the standards of its qualifications.

To this end DUT welcomes constructive criticism from students in accordance with the procedural steps set out in the following flow diagram.

Students must ensure that any criticism is factually well founded and allow a reasonable time for their issues to be resolved.

STUDENT CODE OF CONDUCT

SRI STUDENT RIGHTS AND THE BOUNDARIES OF ACADEMIC FREEDOM **(1) PREAMBLE**

Academic institutions exist for the transmission of knowledge, the pursuit of truth, the development of students, and the general wellbeing of society. Within the boundaries of good academic order, free enquiry and free expression are indispensable to the attainment of these goals. Students, as members of the academic community, should be encouraged to develop a capacity for critical judgement and to engage in sustained and independent search for truth.

Freedom to teach and freedom to learn are inseparable facets of academic freedom. Both these freedoms depend upon appropriate opportunities and conditions in the lecture hall, on the campus and in the larger community. It is the duty of any tertiary educational institution to develop policies and procedures that foster these freedoms. The concept of academic freedom is inextricably interwoven with the concept of responsibility. While students may reasonably expect academic freedom, the society in which they operate has a reciprocal right to demand that such freedom be used responsibly. "Freedom of thought is an absolute right, whereas freedom of action must inevitably be conditional upon the possible harm done to others." (R S Peters) The Institution respects and is determined to protect the individual dignity, integrity and reputation of all persons involved in the activities of the Institution.

(2) ACADEMIC ORDER AND THE BOUNDARIES OF ACADEMIC FREEDOM

The Institution is a South African tertiary institution, and its students shall adhere to the general legal principles of the country. It has a duty towards the State which finances it, the community which supports it and entrusts its youth to it, and the students who depend upon it to give them a viable education.

The Institution shall aim at the highest standards of academic excellence. The Institution shall endeavour to create a climate conducive to its broader education task and to construct the infrastructure necessary for the high ideals stated in the preamble.

The rights and privileges of the students of the Institution are set out in SR2 of this code, while the order system within which such rights and privileges shall operate as well as the Rules for Students are set out in SR3. The various tribunals involved in the order system and the jurisdiction of these tribunals are described in SR4.

(3) INSTITUTIONAL CODE OF ETHICS

The University's Code of Ethics as approved by Council is a statement of the ethical principles, values and behaviours expected of staff and individuals associated with the University. Such persons are required to be careful, honest, responsible and efficient and to avoid impropriety in order to preserve the resources and assets of the University for the public good. The code also seeks to promote the highest standards of scientific and professional integrity and to give due consideration to the ethical issues arising from the activities of the Institution.

(Inserted w.e.f. 2010/01)

SR2 STATEMENT OF STUDENT RIGHTS AND PRIVILEGES

(1) SOME BASIC RIGHTS

(a) Freedom of Expression

Student organisations and individual students shall be free to examine and discuss all questions of interest to them and to express opinions, provided such opinions do not promote violence and/or infringe on the dignity and basic rights of others. They shall be free to support any cause by orderly means which does not disrupt the regular and essential operation of the Institution.

At the same time, it shall be made clear to the academic and the larger community that in their public expressions or demonstrations the students or student organisations speak only for themselves and in no way reflect the official policy or opinion of the new Institution.

(b) Freedom from Discrimination

The Institution does not discriminate against students on any grounds whatsoever in any recognised area of student life. However, those campus organisations that are essentially and avowedly social fraternal groups may limit membership on the basis of sex, while those campus organisations that are essentially and avowedly sectarian may limit membership on the basis of religion.

The Institution operates within the laws of the Republic of South Africa and shall adhere to any law that regulates social life.

(c) Student Rights in the Government of the Institution

As an integral and essential part of the Institution, the student body shall have clearly defined means, which may include membership on appropriate committees and administrative bodies, to participate or make input in the formulation and application of the institutional policy affecting student affairs. The concept "student affairs" shall be interpreted to include all functions that have direct or indirect bearing on student life.

(2) STUDENTS IN THE CLASSROOM

(a) Protection of Freedom of Expression

Students are free to take reasoned exception to the data or views offered in any course of study and to reserve judgment about matters of opinion, but they are responsible for learning the content of any course of study for which they are enrolled.

(b) Protection against Incompetent Instruction

Students have the right to competent instruction and assessment in the courses for which they have registered. Students who are of the opinion that a lecturer has failed to meet this requirement may, after consultation with the lecturer concerned, take their problem to a higher authority. In this respect students are referred to "Processes for addressing students issues" contained in this Rule Book.

(c) Protection against Improper Academic Evaluation

Students have the right to question, through orderly procedures, the academic evaluation to which they are subjected.

(d) Protection against Disclosure

Information about students' views, beliefs and legal political associations which lecturers acquire in the course of their work as instructors, advisers and counsellors are considered confidential. Judgment of ability and character may be provided under appropriate circumstances, preferably with the knowledge or consent of the student.

(3) THE STUDENT AS CAMPUS CITIZEN

(a) Student Government

The student body has the right to form and democratically elect governing bodies as a means of participating in discussion of issues and problems and to act on behalf of the students. Such bodies shall function as representatives of the students within the Institution structure.

The electorate of the Institution's students shall consist of the entire registered student body.

(b) Student Organisations

(i) Freedom of Student Association

Subject to the Institution's regulations and the general laws of the country, the students are free to organise and join organisations in order to promote their common and lawful interests. There shall be no discrimination against a student because of membership in any student organisation.

(ii) Registration, Recognition and Disclosure

All student organisations shall be registered and recognised in accordance with the Institution regulations. Registration or recognition may be withheld or withdrawn from an organisation which violates the Institution regulations. Registration and recognition procedures shall require identification of responsible officers and all members.

(iii) Use of Campus Facilities

Meeting rooms and other campus facilities are available, on an equitable basis, to all registered student organisations, as far as the primary use of these facilities for other Institution purposes permits and is in keeping with the best interests of the Institution.

(c) Student Sponsored Forums

Within the framework of academic freedom as spelled out in Section I, students have the right to assemble, to select speakers and to discuss issues of their choice. The use of Institution facilities for such assemblies requires certain procedures to be followed which are aimed solely at orderly scheduling and adequate preparation for events.

(d) Pamphlets, Petitions and Demonstrations

Within the framework of academic freedom as spelled out in Section I, student organisations and individual students have the right to distribute pamphlets, collect names for petitions and conduct orderly demonstrations, provided these actions are not disruptive of normal Institution functions, or do not encompass the physical takeover or occupation of buildings or parts of buildings without the prior authorisation of the Institution, whether or not other functions are performed in them at that time. At no time shall the students' rights to dissent and protest be exercised in such a manner as to infringe on the rights or privileges of other students, which includes the right to attend lectures, hold their own meetings or hear another speaker.

(e) Student Publications and Media

The student press and media, while being governed by the canons of responsible journalism, shall be free from censorship and advance approval of copy.

Editors and managers of student publications or broadcast stations are free from arbitrary suspension and removal because of student, staff, administrative, or public disapproval of editorial policy or content. Any removal of such officers shall be deemed a form of disciplinary action and therefore subject to prescribed due process in disciplinary cases. The agency responsible for the appointment of editors and managers shall be the agency responsible for their removal.

All Institution-published and Institution-financed student publications shall explicitly state on the editorial page that the opinions there expressed are those of the publication and are not necessarily those of the Institution or the student body.

SR3 REGULATION OF STUDENT LIFE ON CAMPUS

(1) THE ENACTMENT OF REGULATIONS

The Institution respects and is determined to protect the dignity, integrity and reputation of the individual. At the same time it requires that students comply with those conventions and regulations of the Institution life which it feels are necessary to maintain order, to protect individuals and property and to fulfil its purposes and responsibilities as a tertiary academic institution. To this end the Institution realises that the prevailing rule in matters of student discipline must continue to be that of common sense and the audi alteram partem rule. The Institution's regulations are intended to formalise general standards of student conduct and will come into effect only after approval by Council on recommendation of appropriate committees on which the student body shall be represented by its Student Representative Council.

The Institution's regulations do not contemplate specialised regulations or rules governing academic, business or contractual matters, or rules or regulations published by administrators, students or staff for the control of facilities or programmes, such as those not normally submitted to Council for approval. Generally understood standards of conduct, such as respect for the persons and property of others, continue to apply and may form the basis of disciplinary action though nowhere specified in particular detail.

It is the general intention of the Institution to bring students into active participation in the formulation of Institution regulations and to encourage the inclusion of students as active participants in the formulation of those regulations to the extent that such involvement can be accomplished reasonably and practicably.

(2) STANDARD OF FAIRNESS AND STUDENT RIGHTS IN DISCIPLINARY CASES

Certain procedural rights are guaranteed to a student in any Institution disciplinary proceeding in which the student stands to bear a significant injury, such as expulsion, suspension or recorded reprimand. A student subject to such disciplinary action is in danger of injury to that student's reputation, opportunity to learn and earning power. Following an alleged act of misconduct and until final disposition of the charges, the status of a student shall not be altered nor the student's right to be present on campus and to attend lectures suspended, except for reasons relating to the student's physical or emotional safety and wellbeing or for reasons relating to the safety and wellbeing of other students, staff, or Institution property, or for reasons relating to the protection of

SR3(2)(cont)

the normal functions of the Institution.

Changes of the status of a student that are not disciplinary in character and intended neither as punishment nor as censure, but required by administrative, academic or security interests of the Institution and its community, are not governed by these disciplinary procedures. A list of basic rights of students in any disciplinary proceeding is set out below:

- (a) The right to notice on charges whenever formal action upon such charges is initiated, such notice to be given within a reasonably prompt period and with sufficient particularity as to the facts that the student may reasonably investigate the charge and prepare a defence, with reasonable and appropriate recesses and continuances being provided to all parties.
- (b) The right to confront and cross-examine any witnesses appearing against the student, to produce witnesses on the student's own behalf, to present evidence, to know prior to hearing the contents of and the names of the authors of any written statements which may be introduced against the student, and to rebut unfavourable inferences that may be drawn from such statements. The right not to be compelled to be a witness against oneself or to have one's silence taken as an indication of guilt.
- (c) The reliance upon evidence shall be determined on the balance of probabilities. However, rules of evidence in courts of law shall not as such be strictly enforced.
- (d) The right to be accompanied and represented in all procedures by an advisor of the student's own choosing.
- (e) The right to have a public hearing unless the hearing body's reasonable determination is that a public hearing would unduly and adversely affect the proceedings.
- (f) The right to appeal against decisions to a higher authority or hearing body within the administrative processes provided.
- (g) The right to have one's case processed without prejudicial delay.

(3) RULES FOR STUDENTS

Every student, by signing an accommodation declaration and/or an official registration form for study of whatever nature at the Institution, becomes subject to all the rules of the Institution as approved by the Council and liable for any proven offence committed whilst a registered student.
