The above department offers two programmes:

DENTAL TECHNOLOGY
DENTAL ASSISTING

This handbook offers information on both programmes
WHAT IS A UNIVERSITY OF TECHNOLOGY?
A university of technology is characterized by being research informed rather than research driven where the focus is on strategic and applied research that can be translated into professional practice. Furthermore, research output is commercialized thus providing a source of income for the institution. Learning programmes, in which the emphasis on technological capability is as important as cognitive skills, are developed around graduate profiles as defined by industry and the professions.

IMPORTANT NOTICES
The rules in this departmental handbook must be read in conjunction with the General Rules (G Rules) contained in the DUT General Handbook for Students as well as the relevant subject Study Guides.
Your attention is specifically drawn to Rule G1 (8), and to the process of dealing with students’ issues.

NOTE TO ALL REGISTERED STUDENTS
Your registration is in accordance with all current rules of the Institution. If, for whatever reason, you do not register consecutively for every year/semester of your programme, your existing registration contract with the Institution will cease. Your re-registration anytime thereafter will be at the discretion of the institution and, if permitted, will be in accordance with the rules applicable at that time.
Vision: “Leading Transformative and Innovative Health Sciences Education”

Mission Statement: “Developing Holistic Professionals responsive to Healthcare needs” through Excellence in:
- Teaching and Learning
- Research, Innovation and Engagement
- Fostering Entrepreneurship

Values
Professionalism
To work within regulatory frameworks of professional conduct. To maintain and develop professional expertise and good work ethic.

Integrity
To conduct ourselves with strong moral principles. To be honest and authentic. To do what is ethical and just.

Ubuntu
To treat people with respect, fairness, courtesy, politeness and kindness.

Transparency
To conduct ourselves with openness and honesty through shared governance.

Accountability
To accept responsibility for one’s actions.
DEPARTMENTAL VISION, MISSION & VALUES

Department of Dental Sciences Vision:

Department Vision: “Advancing Excellence in Dental Science Education”

Mission Statement: “Developing Holistic Dental Professionals Responsive To Oral Healthcare Needs” through excellence in:
- Teaching, Learning and Assessment
- Research, Innovation, Engagement and
- Entrepreneurship

Values
Professionalism
To sustain professional expertise and engender ethical behavior

Integrity
To practice and uphold moral principles, truthfulness and honesty

Accountability
To be liable for one’s decisions, commitments and actions

uBuntu
To embody mutual respect, dignity, empathy and altruism

Teamwork
To effectively work together towards common goals

Ms K Pillay

**Clinic Receptionist/Dental Assistant**  
Mrs B Majola

**Senior Technical Assistant**  
Ms W Allison  
B Tech: Cost Management and Accounting

**Technical Assistant**  
Mr M P Phewa

**Admin Assistant**  
Mr M Ndebele
3. DEPARTMENTAL INFORMATION & RULES

3.1. Programmes offered by the department
This department offers two programmes, namely
- Dental Technology
- Dental Assisting

3.2. Qualifications offered by the department
Learning programmes are offered in this Department which will, upon successful completion, lead to the award of the following qualifications:

<table>
<thead>
<tr>
<th>Qualification</th>

</tbody>
</table>
student must timeously advise the department of the reason. Only exceptional reasons will be accepted for absence from guest lectures, industry or field trips. Poor attendance records may lead to penalties.

3.3.5. Health and Safety
Students must adhere to all Health and Safety regulations both at DUT and during Workplace Based Learning (WPBL) placements. Failure to do so will be treated as a breach of discipline.

3.4. Departmental Rules

3.4.1. Registration
The final date for late registration for the Dental Technology and Dental Assisting Programme will be fifteen (15) working days after the official commencement of lectures.

3.4.2. Discipline
Rules of conduct pertaining to conduct, laboratories and clinical environments as instituted by the Head of this Department shall apply to all students registered for the particular subject.

• Material Wastage
Students found to be wasting materials will be disciplined.

• General Disciplinary Issues
The Head of Department shall have the right to constitute an internal disciplinary tribunal should he/she deem this necessary.

• Equipment

Equipment Damage: Students found to have damaged any equipment will be charged the full amount of the repair / replacement. The Department is NOT responsible for any damage or loss of personal equipment.

Issued Equipment: Students will be allocated departmental equipment for the duration of the year. It is the student’s responsibility to take care of the said equipment. Any equipment, lost, stolen or damaged will be to the account of the student to whom the equipment was issued.

Please note: The Dental Technology programme supplies lockers for the safe-guarding of equipment. The student is required to pay a R200.00 holding fee. Each student is to ensure that they have their own equipment and instruments to complete the practical tasks. Students who are NOT compliant will not be allowed to enter practical lectures and assessments.
• **Laboratory and/or Clinic Cleaning**

Students are required to clean laboratories and/or clinics at the end of the teaching day as well as to be present at general cleaning every Wednesday Afternoon (Dental Assisting) and every Thursday afternoon (Dental Technology). Failure to be present will result in the student cleaning his/her laboratory or all the laboratories/clinic (up to one week) of the department of Dental Sciences or community work. Students transgressing this rule for a third, or more, time will be referred to the Registrar Academic for institutional disciplinary action. In those instances where discipline is of a serious nature or that the student concerned has been found guilty of a similar offence, the matter will be referred to the DUT’s disciplinary tribunal.

• **Absenteeism**

Lecturers appreciate 100% attendance. Non-attendance will negatively impact on student performances in subjects.

3.4.3. **WorkPlace Based Learning (WPBL)**

The Department of Dental Sciences requires students to undergo a period of work place based learning as part of the programme (Dental Technology and Dental Assisting). All prescribed subjects and the prescribed experiential component must be passed in order to obtain sufficient credits to qualify for the qualification. Although the Institution undertakes to assist the student in obtaining suitable work place based learning placement, the onus is on the student to attempt to find an “employer”. The employer must be accredited by the Institution for the purposes of work place based learning.

An experiential learning agreement creates a separate contract between the “employer” and the student.

**National Diploma: Dental Technology**

Students registered for the National Diploma: Dental Technology are required to provide the department with proof of having 20 days of Workplace Based Learning at a commercial laboratory.

The necessary forms, to be completed by the student and the laboratory owner, are obtainable from the Secretary and must be returned no later than the first day of the fourth term. The department may, at its discretion, allocate teaching time for this exercise, but this will not exceed 10 teaching days for 3rd year students

**Bachelor of Health Sciences: Dental Technology**

Students registered for the Bachelor of Health Sciences: Dental Technology are required to provide the department with proof of having 24 weeks (6 months) of Workplace Based Learning at a commercial laboratory.
Higher Certificate: Dental Assisting
Students registered for the Higher Certificate: Dental Assisting are required to provide the department with proof of completing 350 hours of Workplace Based Learning at a registered dental practice.

3.4.4. Late submissions of practical tasks and assignments
Practical tasks and assignments that are not handed in on due date and time will be penalized. Students are reminded that assignments are given well in advance and that last minute problems can be avoided by completing assignments before the due date. See discipline-specific study guides for further details.

3.4.5. Dental Clinic
The Department of Dental Sciences operates a Dental Clinic for the training of Dental Technology and Dental Assisting students.
Dental Technology - Work generated by this clinic is handed to students to complete. Please note that the completion of this work is compulsory. The work completed by students for the clinic may be evaluated and the marks obtained by the student may be used in the determination of a student’s year mark.
Dental Assisting - Students are expected to assist the clinician with all procedures.

3.4.6. Special Tests and Condonement
Summative means all assessment marks that contribute to the final mark of a subject, but not including examinations for the purpose of this rule.
If a student misses a summative written, oral or practical test, for reasons of illness, a special test may be granted if the student provides a valid medical certificate specifying the nature and duration of the illness, and a declaration that for health reasons it was impossible for the student to sit for the test. This certificate must be submitted to the subject lecturer, no later than one week after the date of the missed test.
Any student who misses an assessment test, and any student who qualifies for a rewrite but fails to write it, will be scored a zero mark for the missed assessment.

3.4.7. Registration with the Professional Board: Dental Technology Students
In addition to the requirements of the General Rules (see Rule G3) a student who registers for the National Diploma in Dental Technology or Bachelor of Health Sciences in Dental Sciences or Postgraduate qualification in Dental Technology (practicing as a Dental Technician or Dental Technologist) shall be registered as a Student Dental Technician and must conform to the requirements as laid down by the South African Dental Technicians Council in the Dental Technicians Act, 1979.
A graduate, on successful completion of the National Diploma in Dental
Technology, and who has satisfied the requirements of the South African Dental Technicians Council shall be recognized by the South African Dental Technicians Council as qualified for registration as a dental technician. The said qualification shall entitle the holder thereof to practice a profession as a Dental Technician, however only in the capacity of employee.

A graduate on successful completion of the Bachelor of Health Sciences in Dental Sciences, and who has satisfied the requirements of the South African Dental Technicians Council shall be recognized by the South African Dental Technicians Council as qualified for registration as a Dental Technologist.

No student who is in fee default with the Institution will be registered with the South African Dental Technicians Council until such time as his/her fees are paid up in full. This must be completed within five years of obtaining your qualification.

3.4.8. Registration with the Professional Board: Dental Assisting Students

In addition to the requirements of the General Rules (see Rule G3) a student who registers for the National Certificate in Dental Assisting shall be registered as a Student Dental Assistant and must conform to the requirements as laid down by the Health Professionals Council of South Africa.

A graduate, on successful completion of the National Certificate in Dental Assisting, and who has satisfied the requirements of the Health Professionals Council of South Africa shall be recognized by the Health Professionals Council of South Africa as qualified for registration as a Dental Assistant.

No student who is in fee default with the Institution will be registered with the Health Professionals Council of South Africa until such time as his/her fees are paid up in full.

3.4.9 Appeals

Rule G1 (8) refers:

Any student wishing to appeal against:

(a) The implementation of an Institutional Rule must do so in the first instance to the relevant Head of Department;

(b) The decision of a Head of Department must do so via the relevant Executive Dean to the Faculty Board or a delegated Committee of the Faculty Board. The decision of the Faculty Board or a delegated Committee of the Faculty Board is final and no further appeals will be considered thereafter.

(Amended w.e.f. 2009/01)
4. NATIONAL DIPLOMA: DENTAL TECHNOLOGY

4.1 Programme information

A diploma in Dental Technology enables a qualified dental technician to work as a dental laboratory employee upon registration with the South African Dental Technicians Council (SADTC). A final practical assessment is conducted, in the concluding year of the programme, which, if completed successfully, enables the qualified student to register with the SADTC. Certain subjects in this programme do not have a final examination. The results for these subjects are determined through a weighted combination of assessments. As such, there are no supplementary examinations. Students are encouraged to work steadily through the period of registration in order to achieve the highest results possible. Assessment details are listed under each subject at the back of this handbook. Moderation follows the DUT requirements.

*CA = Continuous Assessment; E = Examination at end of Subject / Module
4.3 Programme Rules
4.3.1 Minimum Admission Requirements
The programme will not be admitting new students into the National Diploma: Dental Technology.

4.3.2 Selection Processes
The programme will not be selecting new students.

4.3.3 Pass Requirements
Notwithstanding the DUT pass requirements (G14 and G15), and those detailed as follows, students are encouraged to apply themselves to their learning, and strive for the best academic results possible in order to adequately prepare themselves for their future careers, and to maximize possible employment opportunities. In line with SADTC requirements, students must complete their National Diploma qualification within five years.

4.3.3.1 A student Dental Technician shall not be permitted to continue with:
- Dental Technology Theory II or III;
- Dental Material Science II or III; and
- Applied Dental Technology II or III

Unless the student has passed the preceding module/level.
(Consistent with Dental Technicians Act, 1979. Reg 21(2)

4.3.3.2 Tooth Morphology is a prerequisite for Applied Dental Technology II.

4.3.3.3 Oral Anatomy is a prerequisite for Applied Dental Technology III.

4.3.3.4 Continuous Evaluation Subject Rules
Please refer to 4.1 Learning Programme Structure to identify the subjects/modules, which are evaluated by Continuous Assessment. Examinations will not be written in these subjects/modules. All modules will need to be passed in the same academic year. See “Subject Content” for further information as well as specific Study Guides, which contain specific rules for each subject. Any numbers of tasks may form the class work marks, this is solely dependent on the discipline-specific lecturer in charge of the different sections. Formal tests will be held during the year, these will be held as and when necessary. Students failing formative class work and assessments are encouraged to repeat exercises to improve their performance. Summative classwork and assessments are exempt from a re-submission.
4.3.3.5. Examination Subject Rules

Please refer to 4.1 Learning Programme Structure to identify the subjects / modules, which are evaluated by Examination.

A 40% duly performed (dp) mark is required to enter the examination for each module for the above subjects.

A final pass mark of 50% is required for each module for the above subjects. The examination for Module 1 is written during the mid-year examination period and for Module 2, during the year-end examination period.

A student failing Module 1 and Module 2 will be permitted supplementary examinations provided that the results obtained comply with the supplementary examination rules as contained in rule G13 (3).

A student must pass both modules in one academic year failing which the student will be required to re-register for both modules.

4.3.3.6 Rules for Dental Technology Theory

**Dental Technology Theory I, II AND III** is an annual subject.

Both subjects consist of 2 modules each containing 2 study units:
- Module 1: Study Unit 1 - Crown & Bridge and Study Unit 2 - Orthodontics;
- Module 2: Study Unit 1 - Chrome and Study Unit 2 - Prosthetics

Final marks for each study unit will be determined as follows:

<table>
<thead>
<tr>
<th>Assessment</th>
<th>Weighting</th>
<th>Sub-min</th>
</tr>
</thead>
<tbody>
<tr>
<td>Assessment 1</td>
<td>35%</td>
<td></td>
</tr>
<tr>
<td>Assessment 2</td>
<td>40%</td>
<td>40%</td>
</tr>
<tr>
<td>Assessment 3</td>
<td>25%</td>
<td>40%</td>
</tr>
</tbody>
</table>

**Note for each Study Unit:**
- In respect to Assessment 1, a subminimum mark is not applicable.
- A subminimum pass mark of 40% is required for Assessment 2.
- A subminimum of 50% will apply to final assignments / presentations submissions. Students may be afforded formative assessment opportunities prior to the final submission.
- The final mark for each Study Unit comprises the marks scored for Assessment 1, 2 & 3 with the appropriate weightings. The final pass mark for **each study unit** per Module is 50%.
- Students must pass both Module 1 and Module 2 of the subject Dental Technology Theory in the same academic year. Therefore, failure in any study unit will necessitate re-registration for all study units.
- Each study unit is an independent unit and all study units must be passed.
in the same academic year. Therefore failure in any study unit will necessitate repeating the entire module.

**Applied Dental Technology I**

<table>
<thead>
<tr>
<th>Assessment</th>
<th>Weight (Sub)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Assessment 1</td>
<td>30% (40%)</td>
</tr>
<tr>
<td>Assessment 2</td>
<td>30% (40%)</td>
</tr>
<tr>
<td>Class work</td>
<td>40% (40%)</td>
</tr>
</tbody>
</table>

**Applied Dental Technology II** consist of 4 study units:

- Study Unit 1 - Crown and Bridge and
- Study Unit 2 - Orthodontics;
- Study Unit 3 - Chrome and
- Study Unit 4 - Prosthetics

Final marks for each study unit will be determined as follows:

<table>
<thead>
<tr>
<th>Assessment</th>
<th>Weight (Sub)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Assessment 1</td>
<td>30% (50%)</td>
</tr>
<tr>
<td>Assessment 2</td>
<td>30% (40%)</td>
</tr>
<tr>
<td>Class work</td>
<td>40% (40%)</td>
</tr>
</tbody>
</table>

- Students must pass all study units of Applied Dental Technology in the same academic year. Therefore, failure in any study unit will necessitate re-registration for all study units.
- An overall sub-minimum of 50% is required for Applied Dental Technology II (Assessment 1, 2 and classwork)

**Applied Dental Technology III** consist of 4 study units:

- Study Unit 1 - Crown and Bridge and
- Study Unit 2 - Orthodontics;
- Study Unit 3 - Chrome and
- Study Unit 4 - Prosthetics

Final marks for each study unit will be determined as follows:

<table>
<thead>
<tr>
<th>Assessment</th>
<th>Weight (Sub)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Assessment 1</td>
<td>30% (50%)</td>
</tr>
<tr>
<td>Assessment 2</td>
<td>30% (50%)</td>
</tr>
<tr>
<td>Class work</td>
<td>40% (40%)</td>
</tr>
</tbody>
</table>
• Students must pass all study units of Applied Dental Technology in the same academic year. Therefore, failure in any study unit will necessitate re-registration for all study units.
• An overall sub-minimum of 50% is required per study unit for Applied Dental Technology III (Assessment 1, 2 and classwork)

4.3.3.7. Rules for Practical Tests and Examinations

A. Preparation procedures prior to the commencement of the test and/or examination.
A.1. All models, examples, teaching aids, previous work done by the students must be cleared out of the laboratory at least one day prior to the commencement of the test/examination. This is to ensure that no outside help or unfair advantage can be gained by the students. Students are to make their own arrangements as to what they should do with these articles cleared from the laboratory.
A.2. All materials, personal tools and equipment required for the practical must be on hand and in working order.
A.3. The invigilator must ensure that all models must be laid out or on-hand and clearly marked for the test / examination.

B. Test and/or examination day.
B.1. No student is allowed to communicate to another student, except when it is relevant to the practical test.
   1.1 You are not allowed to discuss your practical cases during the practical test.
B.2. You are NOT allowed to have old models and practical work in your possession.
B.3. Cell phones are to be switched off and placed in your bags.
   3.1 You are not allowed to have a cell phone in your possession, if found, it will be confiscated for the duration of the test.
B.4. All materials obtained prior and during this test are to be obtained from the Departmental Store only.
   4.1 All communal materials must be obtained and returned to the invigilator.
B.5 A replacement model, if required, must be obtained from the designated invigilator on duty.
B.6. No student may bring any handbags or lunch boxes into a test or an examination. Students are to make their own arrangements as to what they should do with these articles.

B.7. Students enter, go to their workstations, and lay out and prepare their tools and instruments.

B.8. The following will be read out prior to the text/examination papers being handed out: “This is an official test/examination of the Department of Dental Sciences as constituted by the Durban University of Technology. All rules of the Institution pertaining to tests and examination apply. These rules are to be found in the Rule Book for students of the Institution and are available to students on request. Those students contravening these rules will be prosecuted in terms of the rules of the Durban University of Technology by the Institution’s disciplinary tribunal.” (Note to invigilator: In the case of an examination a list of instructions to be read to students will be supplied by Examinations Office and must be read out as well as B.3)

B.9. Time of arrival to major practical tests, any student arriving late will be allowed into the laboratory only up to one hour after the commencement of the test. Such a student will not be allowed extra time. This is aligned with DUT test and examination rules.

C. The following laboratory rules & procedures will apply:

C.1. No additional tools, instruments, models or equipment may be brought into the laboratory during the duration of the test/examination. Any additional materials required by the student to complete the test/examination may only be brought into the venue under the supervision of the invigilator. No tools, instruments, materials, models or equipment may be taken out of the laboratory until the end of the test/examination and after all work has been taken in for marking.

C.2. At lunchtime, the invigilator will inform the students to stop working. All gas taps are to be turned off and the students are to stand by their workstations and await the invigilator’s instructions. Upon checking each individual student’s work the invigilator will give the student permission to leave the laboratory. At the end of the lunch break, the invigilator will allow the students to re-enter and carry on from where they left off.

D. At the end of the day:

D.1. The invigilator will inform the students to stop working.

D.2. All students will tidy their workstations and lay out their work-in-progress on their workbenches.

D.3. All students will then clean the laboratory to the satisfaction of the invigilator.

D.4. After the laboratory has been cleaned, the student will stand by their workstations and the invigilator will check all work to ensure that everything is present. The onus is on the student to ensure that all his/her work is
present on the bench for inspection. The student will then be told that he/she can go and must leave the laboratory immediately. The student’s work is to be left on the top of his/her workbench. If the student has a muffle to go into the overnight furnace, the student must go to the casting room with the muffle and wait there for the invigilator.

D.5. After all the students have left, the invigilator will secure and lock the laboratory.

E. A student may not:
E.1. Touch or handle another student’s work;
E.2. Discuss his/her work or another student’s work with another student;
E.3. Leave the test/examination room FOR WHATEVER REASON without the permission of the designated invigilator;
E.4. Work at another student’s workstation;
E.5. Invest or cast another student’s work, either together or separately with their own work.

F. Student completing the work prior to the end of the test or examination may inform the invigilator that he/she is finished. He/she must then tidy his/her workstation and hand in his/her completed work. The student must then leave the laboratory immediately. At the end of the test or examination, the student must return and help to clean the laboratory.

G. At the end of the test/examination the invigilator will stop the students from working. Students are then required to clean the laboratory. When the laboratory is clean, the invigilator will take in the student’s work. It is the student’s responsibility to see that all his/her work is clearly marked with his/her name or number.

H. Students are to hand in their own work. Test/examination work MAY NOT be handed in by another student.

I. Casting procedure
I.1 A student may only cast his/her own work.
I.2 The student will ensure that his/her muffle and casting ring is clearly marked with his/her name or number.
I.3 In the event that a student casts another student’s muffle and casting ring his/her own muffle and casting ring will be withdrawn and he/she will have to start that section of work again. If the other student’s muffle is a miscast, he/she will be allocated extra time only at the discretion of the Head of Department.
I.4 All castings need to be performed in the presence of the invigilator. When ready to cast please inform the invigilator. Failure to do so will result in your casting being withdrawn.

I.5 All work must be submitted on an appropriate articulator.

Note:
Any contravention of the above mentioned instructions/requirements will lead to disciplinary action.

A 40% sub-minimum is applicable to each discipline-specific section, and the overall pass mark for this test is 50%, and above.

J. Flasking and Packing of Dentures
The student will ensure that his/her flasks and clamps are clearly marked or labeled with his/her name or number. In the event that a student packs or flasks another student’s work, his/her own work will be withdrawn and he/she will have to start that section of the work again. If the other student’s work has been damaged, he/she will be allocated extra time at the discretion of the Head of Department.

K Procedure for packing overnight furnace
When a student wants a muffle or casting ring to go into the overnight furnace he/she will take the muffle or cast ring to the casting room after his/her work station has been checked at the end of the day. The invigilator will then pack the furnace and set the times and temperature. Each student will note the position of his/her muffle or casting ring in the furnace and the casting in the morning will be in the reverse sequence to the placing of the muffles or casting rings the night before.

L After the invigilator has confirmed that students acknowledge the rules as displayed on the class notice board and those additional rules and/or instructions (where necessary) have been verbally explained, the paper is issued and the test/examination will start.

4.3.4. First Aid Certificate
Students shall not be permitted to sit for the examinations at the end of the third year of study unless they are in possession of a Certificate in General First-Aid issued by a first-aid organization recognized by the Institution.

4.3.5. Re-Registration Rules
4.3.6. **Exclusion Rules**

In addition to Rule G17, the following rule applies: A first year student who fails 3 or more subjects with a final mark of less than 40% in these subjects will not be permitted to re-register in the Dental Technology programme. De-registration from any subject is subject to the provisions of Rule G6 (2). Students wishing to re-apply must do so in writing to the department and may be required to undergo further placement testing.

4.3.7. **Interruption of Studies**

In accordance with Rule G21A (b), the minimum duration for this will be three (3) years of registered study and the maximum duration will be five (5) years of registered study, including any periods of WPBL. Should a student interrupt their studies by more than three (3) years, the student will need to apply to the department for permission to re-register and will need to prove currency of appropriate knowledge prior to being given permission to continue with registration. (Please note that this rule is necessary to comply with the South African Dental Technicians Council Rules as per the Dental Technicians Act, 1979 (Regulations regarding the training of student Dental Technicians, No. 21 (4) w.e.f 23 February 2001.)

4.3.8 **Vaccinations**

The Department will facilitate a mandatory Hepatitis B vaccination for first time entering students.

4.3.9 **Materials Purchases**

At times students will be required to purchase materials from the Dental Technology store. Money for materials purchases are to be deposited into the official Durban University of Technology bank account, account number FDTS 301374. A duplicate receipt is to be requested from the cashier, which then needs to be presented to the Senior Technical Assistant who will process the payment on the internal departmental system. Students are responsible for the purchase and cost of dental materials.

**Note:** Students are also responsible for the purchase of personal equipment and instruments, which are needed to complete practical tasks. The table below reflects the estimated cost of equipment and instruments for personal use.

5. **NATIONAL DIPLOMA: DENTAL TECHNOLOGY: EXTENDED CURRICULUM PROGRAMME (ECP) (NDTTF1)**

5.1 **Programme Information**

This department offers an Extended Curriculum learning programme for the ND: Dental Technology. On the basis of the placement assessments, successful applicants for study towards the National Diploma will be accepted into either the three-year minimum; or an augmented, four-year minimum, of study. An augmented, Extended Curriculum has been devised in order to enhance student development and to improve the student’s chances of successful completion.

5.2 **Learning Programme Structure**

### Programme Rules

#### 5.3.1 Minimum Admission Requirements

There shall be no admissions into the National Diploma ECP: Dental Technology

#### 5.3.2 Selection Criteria

There shall be no admissions into the National Diploma ECP: Dental Technology

#### 5.3.3 Pass Requirements

Students registered in the extended curriculum programme, will only be eligible for subsequent registration provided that:

- **5.3.3.1** A student passes 5 out of the 6 registered subjects.
- **5.3.3.2** A student passes the following 3 of the 6 subjects:
  - Introduction to Applied Dental Technology (IADT101),
  - Dental Computer Literacy (DCLT101),
  - Dental Drawings and Carvings (DDRC101)

**NOTE:** The specific rules for ND: Dental Technology (ECP) are stipulated above. In addition, the rules pertaining to the ND: Dental Technology under section 4.3.3 to 4.3.9 apply.

6. MASTER’S OF HEALTH SCIENCES TECHNOLOGY: DENTAL TECHNOLOGY (MHDNT1)

6.1 Programme Information
This full research qualification is aligned to Rule G24 in the General Student Handbook. This 180 credits qualification is offered at SAQA Level NQF level 9. The student will conduct independent research under guidance in Dental Technology, and contribute to knowledge production in that field. The research problem, its justification, process and outcome is reported in a dissertation, which complies with the generally accepted norms for the research at that level. Ultimately, the graduate will make a valuable contribution to the existing body of knowledge and initiate change that will help to develop and advance the profession of Dental Technology. The minimum duration of the programme is one (1) year of study and the maximum duration is three (3) years of study.

6.2 Programme Rules
6.2.1 Admission Requirements
In accordance with Rule G5 in the General Student Handbook, acceptance into the programme is limited, and entry into the Master of Health programme is not automatic. In addition to Rule G24 (1), candidates must be in possession of a Bachelor’s Degree in Dental Technology or an equivalent qualification, or have been granted status or advanced standing according to Rule G10. All international applicants need to have their qualifications evaluated by the South African Qualification Authority (SAQA).

Furthermore, the applicant needs to complete all internal application and selection processes as required by the Department’s Research Committee.

6.2.2 Pass Requirements
Please refer to Rule G24.

6.2.3 Re-registration Rules
Rule G24 (2), Rule G26 (5) and the General Student Handbook.

6.2.4 Exclusion Rules
Rule G24 (1)(d); Rule G24 (2), and the General Student Handbook.

6.2.5 Interruption of Studies
In accordance with Rule G24, the minimum duration for this programme will be one (1) year of registered study and the maximum duration will be three (3) years of registered study. Should a student interrupt their studies by more than three (3) years, the student will need to apply to the department for permission to reregister and will need to prove currency of appropriate knowledge prior to being given permission to continue with registration.

The applicant also needs to complete all internal application processes as required by the department’s research committee.
7. DOCTOR OF DENTAL TECHNOLOGY: DENTAL TECHNOLOGY (DRDNT1)

7.1 Programme Information
This research intensive qualification is aligned to Rule G25 in the General Student Handbook. This 360 credits qualification is offered as SAQA Level NQF level 10. The degree of Doctor of Science is awarded on the basis of the submission of a thesis. The thesis should provide evidence of the student:
Being able to make an original and substantial contribution to the body of knowledge through the use of appropriate research principles and methods;
Gaining knowledge and skills needed to apply scientific research methods independently and critically;
Demonstrating competence in technical skills relevant to Dental Technology, and high level or personal autonomy, commitment and accountability in the design and execution of research;
Think globally and consider issues from a variety of perspectives and apply international standards and practices within Dental Technology;
Demonstrating principles of ethical reasoning and professional responsibility.
The thesis must comply with the normal technical requirements and rules with regard to scope, quality and layout.

7.2 Programme Rules

7.2.1 Minimum Admission Requirements
In addition to Rule G25 (1) in the General Student Handbook, persons must be in possession of a Master of Health Sciences in Dental Technology or equivalent, or have been granted status or advanced standing according to Rule G10. Please also refer to the Postgraduate Student Handbook.

Furthermore, the applicant needs to complete all internal application and selection processes as required by the Department’s Research Committee.

7.2.2 Pass Requirements
Refer to Rule G25 (4) in the General Handbook for Students

7.2.3 Re-registration Rules
Please refer to Rule G26 (5) and the Postgraduate Student Handbook.

7.2.4 Exclusion Rules
Please refer to Rules G25 (2) (B; C (ii)) in the General Student Handbook.

7.2.5 Interruption of Studies
In accordance with Rule G25 (2), the minimum duration for this programme will be two (2) years of registered study and the maximum duration will be four (4) years of registered study. Should a student interrupt their studies by more than three (3) years, the student will need to apply to the department for permission to reregister and will need to prove currency of appropriate knowledge prior to being given permission to continue with registration. Please refer to the Postgraduate Student Handbook.
SECTION B: DENTAL ASSISTING

8. HIGHER CERTIFICATE: DENTAL ASSISTING (HCDNA1)
   [Full Time: One Year Qualification]

8.1 Programme Information
Certain subjects in this qualification do not have a final examination. The results for
these subjects are determined through a weighted combination of assessments. As
such, there are no supplementary examinations. Students are encouraged to work
steadily through the period of registration in order to achieve the highest results
possible. Assessment details are listed under each subject at the back of this handbook.
Moderation follows the DUT requirements.

8.3 Programme Rules

8.3.1 Minimum Admission Requirements
In addition to Rule G7 the following apply:
The minimum entrance requirement for entry into programme: Higher Certificate
in Dental Assisting is a National Senior Certificate (NSC), a Senior Certificate or a
National Certificate (Vocational) (NC(V)), and must include the following subjects
at the stated minimum ratings below:

<table>
<thead>
<tr>
<th>Subject</th>
<th>NSC Rating</th>
</tr>
</thead>
<tbody>
<tr>
<td>English (home) OR English (1st additional)</td>
<td>3</td>
</tr>
<tr>
<td>Life Sciences OR Physical Sciences</td>
<td>3</td>
</tr>
<tr>
<td>Mathematics OR</td>
<td>3</td>
</tr>
<tr>
<td>Mathematics Literacy</td>
<td>5</td>
</tr>
<tr>
<td>and two 20 credit subjects, of which not more than one may be a language</td>
<td>3</td>
</tr>
</tbody>
</table>
The minimum requirement for holders of the Senior Certificate into the programme: Higher Certificate in Dental Assisting is matriculation exemption with the following subjects at the stated ratings:

<table>
<thead>
<tr>
<th>Compulsory Subjects</th>
<th>HG</th>
<th>SG</th>
</tr>
</thead>
<tbody>

<td>C</td>
</tr>
<tr>
<td>and two 20 credit subjects, of which not more than one may be a language</td>
<td>E</td>
<td>C</td>
</tr>
</tbody>
</table>

### 8.3.2 Selection Procedures

In accordance with Rule G5, acceptance into the programme is limited to seventy five (75) places. As more qualifying applications are received than can be accommodated, the following selection process will determine placement in the programme:

All applicants must apply through the Central Applications Office (CAO). Preference is given to those who have Dental Assisting as their first choice. Initial shortlisting for selection is based on the applicant’s academic performance in Grade 12 (Grade 11 or Grade 12 Trial marks, will be used for current matriculants).

All applicants that meet the above requirement will be notified and will be required to complete and submit documentation to the Dental Assisting Programme.

Applicants who are successful following the interview will then be ranked according to the table below:

<table>
<thead>
<tr>
<th>Assessment</th>
<th>Weighting</th>
</tr>
</thead>
<tbody>
<tr>
<td>Results of the NSC, SC or NC(V) certificate</td>
<td>50%</td>
</tr>
<tr>
<td>Certificate of attendance from a dental surgery</td>
<td>10%</td>
</tr>
<tr>
<td>Submitted documentation</td>
<td>10%</td>
</tr>
<tr>
<td>Interview</td>
<td>30%</td>
</tr>
</tbody>
</table>

Shortlisted students will be invited to undergo placement testing. Applicants who pass the placement tests are invited for an interview.

Provisional acceptance is given to selected applicants awaiting National Senior Certificate (NSC) results. If the final Grade 12 NSC results do not meet the minimum entrance requirements, this provisional acceptance will be withdrawn.

Final selection for placement will be based on results in the SC / NSC and DUT placement tests.
8.3.3 **Pass Requirements**
Notwithstanding the DUT pass requirements (G14 and G15), students are encouraged to apply themselves to their learning, and strive for the best academic results possible in order to adequately prepare themselves for their future careers, and to maximize possible employment opportunities.

8.3.4 **Uniform**
It is compulsory for all students to wear the prescribed uniform. Failure to do so will result in disciplinary action. Dental Assisting students are expected to be appropriately attired when attending clinical sessions. This includes the use of gloves, masks, eyewear, gowns, etc.

8.3.5 **First Aid Certificate**
Students shall not be permitted to graduate unless they are in possession of a current Level 2 First Aid Certificate at the time of completing the Dental Assisting programme. The first aid certificate will be arranged and paid for by the programme. Students missing the course for any reason will be expected to obtain the required certificate at their own cost and in their own time.

8.3.6 **Hepatitis B**
All students registered for the programme are required to complete a course of Hepatitis B inoculations arranged and paid for by the department.

8.3.7 **Duration of Programme**
In accordance with the DUT Rule G20B*, minimum duration is one year of registered study, including any periods of clinical practice and maximum duration will be two years including any periods of clinical practice.

8.3.8 **Exclusion Rules**
In addition to the DUT General Rule G17*, a student who fails 50% or more of the subjects registered in the initial year of study with a final mark of less than 40% in the failed subjects will not be permitted to re-register in Dental Assisting programme. De-registration from any subject is subject to the provisions of Rule G6 (2)*.

8.3.9 **Interruption of Studies**
Should a student interrupt their studies for a period of more than two (2) consecutive years, the student will need to apply to the department for permission to re-register and will need to prove currency of appropriate knowledge and skills prior to being granted permission to continue with registration.
