DEPARTMENTAL MISSION

To create a platform to connect stakeholders in the Marketing and Retail Management environment through teaching, learning, applied research and engagement to add value to society.

DEPARTMENTAL VISION

To be a leading Marketing and Retail Management department globally.

What is a University of Technology?
A university of technology is characterised by being research informed rather than research driven where the focus is on strategic and applied research that can be translated into professional practice. Furthermore, research output is commercialized thus providing a source of income for the institution. Learning programmes, in which the emphasis on technological capability is as important as cognitive skills, are developed around graduate profiles as defined by industry and the professions.

a) at least 50% in three fundamental subjects, including English; and
b) at least 60% in three compulsory vocational subjects

**OR**

Admission Requirement based upon Work Experience, Age and Maturity

A person may, subject to such requirement as the Senate may determine, be admitted if such a person is in possession of a National Senior Certificate, Senior Certificate or an equivalent certificate, but lacks not more than one requirement for admission provided that:

(a) the person shall have reached the age of 23 in the first year of registration and shall have at least:
   - three years' appropriate work experience; and/or
   - capacity for the proposed instructional programme, which shall be tested at the discretion of the respective Head of Department; and

(b) the relevant Faculty Board shall be satisfied that the applicant has sufficient academic ability to ensure success, and that the person's standard of communication skills, and/or work experience are such that the person, in the opinion of the relevant Faculty Board, should be able to complete the proposed instructional programme successfully. If required, the communication skills and study skills shall be tested and;

(c) the person's application for admission in terms of Rule G7 (3) is approved prior to registration.

Selection criteria for this programme:

Applicants must meet the minimum requirements mentioned above. NSC and NCV applications received via the Central Applications Office (CAO) will be scored and ranked from highest to lowest points. Based on these rankings, those learners with the highest points will be offered a firm place; the learners who have applied with their grade 11 results may be offered a conditional place subject to them meeting the requirements mentioned above. Preference will be given to learners from designated groups.
4.3 ADVANCED DIPLOMA IN MANAGEMENT SCIENCES

Minimum Admission Requirements
Diploma in Management Sciences, specialising in Marketing or Retail, or a cognate 360 credit NQF level 6 qualification.

Programme Structure
The programme allows students to specialise in one of two areas in the Department of Marketing and Retail Management, namely:

- Marketing
- Retail

Apart from the three (3) core modules, namely, “Project Management”, “Organisational Behaviour”, and “Research Methodology”, the three (3) elective modules chosen by a student will depend on the area of specialisation pursued, as reflected in 6.3.

Duration of Programme
One year full-time

Promotion to a Higher Level/ Progression rules
Not applicable

Exclusion Rules
DUT General Rules will apply

Assessment rules
Some of the modules in the programme will be continuously assessed and the other modules in the programme will include a final examination. Information on the weightings allocated to each assessment, the nature of each assessment, as well as the calculation of the final mark for each module will be included in the respective Study Guides.
5. **REGISTRATION**

All courses offered are semester and registration takes place during January

The last date for acceptance of late enrolments or transfers from other departments will be four weeks from the commencement of lectures.

5.1 **Changing from old programme to new programme**

The ND in Marketing and Retail Business Management will be phased out and students who have not completed the outstanding modules in terms of the phase out plan, will be required to either transfer to the new qualification, or must complete the outstanding modules elsewhere and may apply for exemption, subject to the provisions of the general rules. Students transferring from the incomplete ND in Marketing or Retail Business Management to the Diploma in Management Sciences (Marketing) or (Retail Management) may, on application, be granted credit for modules passed towards the new qualification.

5.2 **Exemptions and transfers**

Students will be able to carry credits from the ND Marketing or Retail Business Management to the new qualification within a four-year period. See General Rules G8 and G9.

5.3 **Work done during the year**

1. Year marks/course marks shall be determined in accordance with the requirements as indicated in the student guides. For details of assessment refer to the student guide pertaining to each module. Failure to meet these requirements will disqualify a student from writing the final examination in the modules concerned.

2. Notwithstanding Rule G12 a year/semester mark obtained for any module is valid only for the main examination in the year/semester in which a student is registered plus the supplementary examination in that module if granted to the student in terms of Rule G13.

3. If a student is absent from a test / formal assessment a medical certificate must be provided within seven working days from the date that the assessment was conducted. The department reserves the right to verify any medical certificate.

4. All students that were absent for a formal assessment and have submitted a medical certificate to the Department, will be permitted to write a make-up test. A make-up test replaces a single test that has been missed in the course of the year, and may not be used to replace an assignment mark. If the student is absent for the make-up test, a zero will be allocated.

5. Students must verify course marks before the final examinations are written. A 40% course mark/DP is needed to gain entry into the exam.

5.4 **Student conduct**

ACADEMIC LITERACY AND WRITING

1. (a) **Duration:** 12 weeks
   (b) **Evaluation:** Continuous Assessment

2. **Content**
   Each week the teaching and learning will incorporate the three strategies outlined below collaboratively.

**Strategy 1: Reading**
Students will be given guided reading tasks in order to encourage them to complete a full reading of the text. Focus will be drawn to each of the following approaches to reading:
- Reading a text for its educational value
- Reading for pleasure
- Reading selected passages of a text for analysis
- The differentiation between reading novels, business correspondence newspapers and social media
- The identification of different registers, dialects, and jargon within a text
- The emergence of blending, code-switching and the incorporation of indigenous languages

**Strategy 2: Critical-thinking and Discussion**
Students will be provided with group discussion topics which will be related to the text that they have read. The objective will be to draw parallels between students’ own life stories and experiences, and the pertinent issues which emerge from the text. Focus will be drawn to the following areas of social discourse:
- Preparation for life in the adult world of work and responsibility
- Gender relations
- Personal ethical frameworks
- Cultural literacies: reconfiguring inter-cultural communication into transculturation and engaging with global cultural trends through South African modes of representation
**Strategy 3: Writing**

Students will be guided to build upon the platform laid by the reading and critical-thinking/discussion sections of the module. The objective will be to develop writing skills at the sentence and paragraph construction levels using the following methodologies:

- Examining how sentences and paragraphs have been constructed by the writer of the text in selected passages
- Revision of the basic properties of sentences and paragraphs
- Writing practice (beyond the shadow of plagiarism)
- Laying the foundations of academic research through research report writing.
