

# HANDBOOK FOR 2020

# FACULTY of HEALTH SCIENCES

# DEPARTMENT of BASIC MEDICAL SCIENCES

The Department of Basic Medical Sciences is a specialist department servicing programmes primarily in the Faculty of Health Sciences.

This Department does not offer any programmes.

Modules are offered in the following disciplines:

Anatomy Biology Epidemiology Pathology Pharmacology Physiology

This handbook offers information on these modules.

#### WHAT IS A UNIVERSITY OF TECHNOLOGY?

A university of technology is characterised by being research informed rather than research driven where the focus is on strategic and applied research that can be translated into professional practice. Furthermore, research output is commercialised, thus providing a source of income for the institution. Learning programmes, in which the emphasis on technological capability is as important as cognitive skills, are developed around graduate profiles as defined by industry and the professions.

#### NOTE TO ALL REGISTERED STUDENTS

Your registration is in accordance with all current rules of the Institution. If, for whatever reason, you do not register consecutively for every year/semester of your programme, your existing registration contract with the Institution will cease. Your re-registration anytime thereafter will be at the discretion of the institution and, if permitted, will be in accordance with the rules applicable at that time.

#### IMPORTANT NOTICES

The rules in this departmental handbook must be read in conjunction with the General Rules (G Rules) contained in the Durban University of Technology (DUT) General Handbook for Students as well as the relevant subject Study Guides.

Your attention is specifically drawn to Rule G1 (8), and to the process of dealing with student issues.

#### **FACULTY VISION, MISSION, GOALS & VALUES**

## VISION

"Leading transformative and innovative Health Sciences education"

## MISSION

"Developing holistic professionals responsive to healthcare needs, "through excellence in:

- Teaching and learning
- \* Research, Innovation and Engagement
- Fostering Entrepreneurship

# **VALUES**

#### **PROFESSIONALISM**

To work within regulatory framework of professional conduct.

To maintain and develop professional expertise and good work ethic.

#### INTEGRITY

To conduct ourselves with strong moral principles.

To be honest and authentic. To do what is ethical and just.

#### **UBUNTU**

To treat people with respect, fairness courtesy, politeness, and kindness.

#### TRANSPARENCY

To conduct ourselves with openness and honesty through shared governance.

#### **ACCOUNTABILITY**

To accept responsibility for one's actions.

# DERPARTMENTAL VISION, MISSION, GOALS & VALUES

#### Vision

To be a leading provider of Basic Medical Science education and research

#### Mission

Making sense of the human body:

Building the foundation for future health professionals

#### **Values**

I. Behaviour

To uphold and promote professionalism, integrity and ethics.

To be responsible and accountable.

2. Mutual Respect

To embrace the principles of uBuntu that represent our humanity and community: kindness, empathy, sensitivity and caring.

3. Student Centeredness

To provide high quality teaching and learning incorporating innovative strategies to address the distinct learning needs of our student.

#### **CONTENTS**

#### I. DEPARTMENTAL AND FACULTY CONTACT DETAILS

#### 2. STAFFING

#### 3. DEPARTMENTAL INFORMATION & RULES

- 3.1. Programmes serviced by the Department
- 3.2. Subjects offered by the Department
- 3.3. Departmental Information
  - 3.3.1. Academic Integrity
  - 3.3.2. Code of Conduct for Students
  - 3.3.3. Uniforms
  - 3.3.4. Health and Safety
  - 3.3.5. Attendance
  - 3.3.6 General Information for Anatomy Dissecting Hall
  - 3.3.7 General Laboratory Information

#### 4. DEPARTMENTAL RULES

- 4.1 Special Tests and Condonements
- 4.2 Student Appeals

#### 5. BOOKLIST

## 6. SUBJECTS AND CONTENT PER PROGRAMME

- 6.1 BHSc: Clinical Technology
- 6.2 BHSc: Chiropractic
- 6.3 BHSc: Homoeopathy
- 6.4 BHSc Medical Laboratory Science
- 6.5 NC: Dental Assisting
- 6.6 BHSc: Emergency Medical Care
- 6.7 BHSc: Environmental Health
- 6.8 BHSc: Medical Orthotics & Prosthetics
- 6.9 BHSc: Nursing Science 6.10 Postgraduate Nursing
- 6.11 BHSc: Radiography 6.12 ND: Somatology

#### I. DEPARTMENTAL AND FACULTY CONTACT DETAILS

#### All departmental enquiries to:

 Secretary:
 Miss N. Manyathi

 Tel No:
 (031) 373 2406

 Fax No:
 (031) 373 2405

Email: nondumisom@dut.ac.za

Location of Department: Department of Basic Medical Sciences, Gate

6, Steve Biko Road, Mansfield Site Area,

Ritson Campus

Head of Department Prof JD Pillay
Tel No: (031) 373 2398
Fax No: (0866)741111
Email: pillayid@dut.ac.za

Location of Department: Department of Basic Medical Sciences, Gate

6, Steve Biko Road, Mansfield Site Area,

Ritson Campus

#### All Faculty enquiries to:

 Faculty Officer:
 Mrs T. Mayisela

 Tel No:
 (031) 373 2701

 Fax No:
 (031) 373 2407

 Email:
 thembim@dut.ac.za

Location: Health Sciences Faculty Office, Gate 8, Steve

Biko Road, Mansfield Site Area, Ritson

Campus

Executive Dean:

Executive Dean's Secretary

Road, Mansfield Site Area, Ritson Campus

#### 2. **STAFFING** Name and Qualification

Associate Professors Prof JD Pillay, PhD (Physiology: Sports Science)

(UCT); MPH (UKZN); BMedSc (Hons) (UDW)

Prof F Haffejee, PhD (Optics & Imaging - Medicine) (UKZN); MSc (UKZN); BSc (Hons) (UDW); BSc (UN)

1136 (311214), 236 (11013) (32114), 236 (314)

**Senior Lecturers** Dr N Govender, PhD (Optics & Imaging - Medicine)

(UKZN); MSc (UDW); BSc (Hons) (UDW); BSc

(UDW)

Dr Y Thandar, PhD (Pharm.) (UKZN), MMedSc

(ClinPharm) (UDW); BPharm (UDW)

Mr MM Walters, MSc (Physiology); BSc (Hons); BSc

(Univ. Stellenbosch); HDE (Post School) (UN)

Lecturers Dr F Ally, PhD (Anatomy) (UKZN); MEd (Higher Ed)

(UKZN); BMedSc (Hons) (UDW); BMedSc (UDW);

HDE (Post school) (UN)

Dr AK Bundhoo, MTech (Chiropractic) (DUT)

Mrs JF Ducray, MMedSc (UKZN); BMedSc (Hons)

(WITS); BSc (WITS)

Dr CM Kell, MTech (Hom) (DUT); PGCE (UNISA)

Mrs BO Mbhele MMedSc (UKZN); BMedSc (Hons);

BSc (BiolSc)

Senior Technicians Mr AM Mkhize, MTech (Biotechnology); BTech (ML

Sultan); BSc (Univ. Zululand)

**Technicians** Mrs Y Padayachee, BSc (RU)

Dr GM Zondi, MTech (Homoeopathy) (DUT)

Technical Assistant Mr S Ninela

Laboratory Assistant Mr TS Nyaba

Secretary Miss N Manyathi, ND (HR) (DUT); B.Tech (HR)

(DUT)

# 3.2 SUBJECTS OFFERED BY THE DEPARTMENT Refer to 6. Subjects and content per programme

#### 3.3 DEPARTMENTAL INFORMATION

#### 3.3.1. Academic Integrity

Please refer to the General Rules pertaining to academic integrity G13 (I) (o). These will be enforced wherever necessary to safeguard the worthiness of our qualifications, and the integrity of the Faculty of Health Sciences at the DUT.

#### 3.3.2. Code of Conduct for Students

In addition to the General Rules pertaining to Student Conduct SR3 (3), a professional code of conduct pertaining to behaviour, appearance, personal hygiene and dress shall apply to all students registered within the Faculty of Health Sciences, at all times.

Students registered in the department will be required to adhere to the dress code as determined by the Head of Programme.

Students must adhere to all Health and Safety regulations both at DUT's Wentworth Hospital teaching facility, DUT Main campus and in clinical placements. Failure to do so will be treated as a breach of discipline.

#### 3.3.3. Uniforms

Students must adhere to instructions regarding specific uniforms required during practical sessions. Refer to your Study Guide for more details.

#### 3.3.4 Health and Safety

Students must adhere to all Health and Safety regulations both while at DUT and in Work Integrated Learning (WIL) placements. Failure to do so will be treated as a breach of discipline. Refer to your Study Guide for more details.

#### 3.3.5 Attendance

Students are encouraged to achieve 100% attendance for all planned academic activities as these are designed to provide optimal support for the required competency. Where absence is unavoidable, the student must timeously advise the department of the reason. Only exceptional reasons will be condoned. Poor attendance records may lead to penalties.

A register of attendance will be circulated during each lecture and practical. It is the responsibility of all students to sign the register personally during these sessions.

Consult your subject Scheme of Work for the dates of the assessments. Absence from these assessments will not be condoned without a valid reason (and proof thereof). These test assessments form the bulk of the subject course mark, which determines the student's eligibility for examination entry. Assignments and short tests may also be conducted as determined by the lecturers and marks from these assessments may contribute towards the course mark.

#### 3.3.6 General Information for Anatomy Dissection Hall

- 3.3.6.1. Under no circumstances may unauthorised persons (persons not registered for Anatomy) enter.
- 3.3.6.2. Cadavers and all human materials must be treated with utmost respect.
- 3.3.6.3. All students must be appropriately dressed. White lab coats are compulsory.
- 3.3.6.4. Smoking and eating are strictly prohibited.
- 3.3.6.5. Each cadaver has 2 stainless steel tags attached (ear and small toe). Do not remove these tags.
- 3.3.6.6. Do not cut or tear plastic used to cover cadavers.
- 3.3.6.7. Buckets at the base of the table are for collecting body fluids only and not for waste paper, scalpel blades, etc. Specific bins are provided for the disposal of wastepaper, scalpel blades, etc.
- 3.3.6.8. Do not leave scalpel, forceps, etc. on the tables or in the cadaver.
- 3.3.6.9. Keep tables clean at all times.
- 3.3.6.10. Do not drop pieces of human material on the floor. Place all off-cuts into bowls provided.
- 3.3.6.11. A bowl is provided at each dissection table for human material only. Please refrain from placing paper towels, scalpel, blades, etc. into these receptacles.
- 3.3.6.12. Do not dispose of paper towels, scalpel blades, etc. into bins specifically provided for human material.
- 3.3.6.13. As far as possible do not discard skin. Use it to cover the cadaver. These are best to prevent dehydration.

- 3.3.6.14. After each session of dissection cover the cadavers appropriately.
- 3.3.6.15. Use the fluids provided in sprays to keep cadavers moist.

#### 3.3.7 General Laboratory Information

- 3.3.7.1. No student is allowed in the laboratory unless a staff member is present.
- 3.3.7.2. Any student without a laboratory coat will NOT be admitted into the laboratory.
- 3.3.7.3. Closed shoes must be worn at all times especially when dissecting equipment is in use.
- 3.3.7.4. No eating, drinking or smoking is allowed in the laboratory.
- 3.3.7.5. All cuts and sores must be covered.
- 3.3.7.6. Appropriate behaviour is expected at all times.
- 3.3.7.7. Each student will be allocated a bench space/work station for the year. It is the responsibility of the students to check their stations BEFORE the commencement of each practical session and to report any discrepancies immediately to a staff member. This pertains particularly to microscopes and slides.
- 3.3.7.8. Any breakages will be charged to the student responsible. The combined class will share the cost if the person responsible for the damage is not identified.
- 3.3.7.9. Students are not permitted into the preparation room or wash up room.
- 3.3.7.10. Students are responsible for keeping their workstations clean and tidy.
- 3.3.7.11. Microscopes must be handled and stored correctly after use. You will be advised on these procedures. Any mishandling of equipment could result in a student being denied access to the laboratory for the remainder of the year/course.
- 3.3.7.12. Practical sessions will begin promptly at the scheduled times. Students arriving late will not be admitted into the laboratory.
- 3.3.7.13. Report injuries to a staff member immediately.

#### 4. **DEPARTMENTAL RULES**

These rules apply to all students registered for subjects offered by this Department.

## 4.1 Special Tests and Condonements

No missed assessments will be condoned.

- If a student misses an assessment for reasons of illness, a special assessment
  may be granted if the student provides a valid medical certificate specifying the
  nature and duration of the illness, and a declaration that for health reasons it
  was impossible for the student to sit for the assessment. This certificate must
  be submitted to the subject lecturer no later than five (2) working days after
  the "fit for duty" date on the medical certificate.
- If a student misses an assessment for reasons other than illness, a special
  assessment may be granted if the student provides a valid notification that for
  unavoidable reasons it was impossible for the student to sit for the assessment.
  This must be submitted to the subject lecturer no later than two (2) working
  days after that date of the missed assessment.
- Any student who misses an assessment and who does not qualify for a special assessment, and any student who qualifies for a special assessment but fails to write it, shall be awarded a zero mark for the missed assessment.

## 4.2 Student Appeals

Rule GI (8) refers to:

Any student wishing to appeal against:

- (a) The implementation of an Institutional Rule must do so in the first instance to the relevant Head of Department;
- (b) The decision of a Head of Department must do so via the relevant Executive Dean to the Faculty Board or a delegated Committee of the Faculty Board. The decision of the Faculty Board or a delegated Committee of the Faculty Board is final and no further appeals will be considered thereafter (Amended w.e.f. 2009/01)

#### 5. BOOKLIST - PRESCRIBED TEXTBOOKS FOR 2021

(The student must obtain the prescribed textbooks, and should consult the recommended textbooks)

Authors Name	Course	Title	Date of Publication	Library Copies
Gosling, Harris, Whitemore, William	Homoeo/Chiro (Anatomy I, II)	Human Anatomy Atlas & Text	Latest Edition	I
Crossman, A.R.; Neary, D	MOP/Homoeo/ Chiro- (2nd yr. only) (Anatomy II-Clin Anat)	Neuroanatomy, An illustrated colour text Churchill Livingston	Latest Edition	ı

#### 6.7 BACHELOR OF HEALTH SCIENCES: ENVIROMENTAL HEALTH

SUBJECT (CODE)	LEARNING AREAS/CONTENT	ASSESSMENT PLAN
Anatomy &	Organisation of the body	CA
Physiology	Homeostatic mechanisms	
ANPA101	Structure and function of cellular organelles, including the causes and cellular basis of cancer	
	Role of Body tissues, including epithelial, connective, muscle and nervous tissues	
	Endocrine system, nervous system, skeletal and muscular system	
Anatomy &	The skin	CA
Physiology	Function of blood, Cardiovascular and respiratory systems	
ANPB102	The digestive system	
	The urinary system	
	Endocrine system; Reproductive system	

# 6.8 BACHELOR OF HEALTH SCIENCES: MEDICAL ORTHOTICS & PROSTHETICS

SUBJECT (CODE)	LEARNING AREAS/CONTENT	ASSESSMENT PLAN
Anatomy I	Introduction to Anatomy	CA
ANMY101	Musculoskeletal	
	Back, Upper limbs and Lower limbs.	
Anatomy II	Section A: Neck –surface anatomy, superficial neck muscles, triangles	CA
ANMY201	of the neck, deep structures of the neck, root of the neck, cervical	
	viscera, thyroid gland, parathyroid glands, facial planes, pharynx, larynx.	
	Section B: Head – Osteology, the Face - muscles, neurovascular	
	structures, lymphatic drainage, the Scalp, cranial fossae and foramina (self-	
	study), the Orbit, parotid and Temporal regions, temporomandibular	
	joint, oral region (self-study), salivary glands, nose and paranasal sinuses,	
	ear (self-study).	
	Section C: Neuroanatomy – Embryology, cerebral topography,	
	brainstem and spinal cord, cerebellum, thalamus, epithalamus and	
	hypothalamus, reticular formation, visual, olfactory and limbic systems,	
	cranial nerves, blood supply of the brain.	
Clinical Studies	Inflammation, repair and healing.	CA
CLCS101	Inflammatory diseases.	
	Degenerative diseases.	
	Post traumatic conditions.	
	Metabolic disorders.	
	Circulatory disorders	
	Amputations	
	Post-traumatic osteoporosis	
	Aseptic bone necrosis.	
	Paralysis resulting from nerve lesions.	
	Diseases of the pelvis and hip.	
	Diseases of the knee.	
	Diseases of the foot.	
	Diseases of the shoulder, elbow and hand, limb deformities, skin	
	disorders and wound repair	
Clinical Studies	Nervous system disorders and diseases (child and adult)(CNS and PNS)	CA
CLCS201	including Polio, Cerebral palsy, paraplegia and quadriplegia, ataxia.	
	Parkinson's disease.	
	Spinal and thoracic deformities, scoliosis, kyphosis.	
	Diseases of the spine.	
	Circulatory disorders.	
	Metabolic disorders.	
	Tumors.	
	Degenerative diseases.	
	Burns.	
	Fractures.`	

Physiology for MOP PYSL102	Anatomy and physiology are defined, the relationships between anatomy and physiology re explained, cells and tissues, integumentary system, muscular system, skeletal system, nervous system, special senses, endocrine system, cardiovascular system, immunity and the lymphatic system respiratory system.	CA
Basic Pharmacology	Basic pharmacology	CA
BPHY101	Pharmacodynamics; Pharmacokinetics	
	Central nervous system	
	Non-steroidal anti-inflammatory drugs	
	Vaccines	
	Cardiovascular system	
	Haemopoietic system	
	Respiratory system	
	Gastro-intestinal tract	
	Endocrinology	
	Vitamins and mineral	
	Anti-neoplastic drugs and immune suppressors	
	Wound care	
	Dermatology	
	Poisoning and emergencies	
	HIV/AIDS	
	Anti-histamines.	

#### 6.9 BACHELOR OF HEALTH SCIENCES: NURSING SCIENCE

SUBJECT (CODE)	LEARNING AREAS/CONTENT	ASSESSMENT PLAN
Introduction to	General aspects of drug therapy including scheduling and legislation	
Pharmacology	Pharmacokinetics and Pharmacodynamics	CA
INPH102	Adverse drug reactions including drug interactions	
	Administration of drugs to patients	
	Autonomic Nervous System (Pharm)	
Pharmacology	Infective diseases, antimicrobial and antiparasitic drugs	CA
PHMC201	Central nervous system drugs	
	Drugs that affect the respiratory system	
	Drugs that affect the cardiovascular system	
	Analgesics and anti-inflammatory drugs	
	Drugs that affect the digestive tract	
	Drugs that affect the endocrine system	
	Family planning and immunization	
	Pharmacodynamics with ref to toxicity, adverse drug reactions and	
	interactions, drugs in pregnancy, lactation, children and elderly; Adverse	
	drug events and reporting mechanisms	

#### 6.10 POSTGRADUATE NURSING

SUBJECT (CODE)	LEARNING AREAS/CONTENT	ASSESSMENT PLAN
Primary Health Care IV	General Aspects of Drug Therapy	CA
PRHC401	Pharmacokinetics and Pharmacodynamics	
	Administration of drugs to patients	
	Adverse effects of drugs	
	Drugs affecting the autonomic, somatic and sensory nervous system	
	Central nervous system	
	Haemopoietic system	
	Respiratory system	
	Digestive tract	
	Analgesics and anti-inflammatory drugs; Antihistamines	
	Hormones and hormone antagonists	
	Antimicrobial and other anti-infective drugs	
	Cardiovascular drugs	
	Poisoning and drug treatment in emergencies	
	Cough /Emphysema	
	Ulcers / Constipation / Diarrhea	
	Poisoning and Emergency drug treatment	

#### 6.11 BACHELOR OF HEALTH SCIENCES: RADIOGRAPHY

SUBJECT (CODE)	LEARNING AREAS/CONTENT	ASSESSMENT PLAN
Anatomy I	Introduction to Anatomy	CA
ANTMI0I	Musculoskeletal Anatomy	
Anatomy II	Regional Anatomy	CA
ANTM201		
Physiology IA	Introduction	CA
PYSA101	Nervous System	
	Endocrine System	
Physiology IB	Cardiovascular System	CA
PYSB101	Respiratory System	
	Renal System	
	Lymphatic & Immunity	
	Reproductive System	
	Gastro-intestinal system	

#### **6.12 NATIONAL DIPLOMA: SOMATOLOGY**

SUBJECT (CODE)	LEARNING AREAS/CONTENT	ASSESSMENT PLAN	
Applied Biological Sciences III Module 2 ABSC321	Introduction to Pharmacology Care and Control of Medicines; Pharmacokinetics Pharmacodynamics Anti-Obesity Drugs Anti-microbial Drugs Male and Female Hormones; Oral Contraceptives Topical Dermatologicals and Acne Drugs affecting the GIT, CNS and CVS Non-steroidal anti-inflammatory drugs	(Old) Year Mark Examination Mark (New) CA	40% 60%
Anatomy & Physiology I APHY102	Introduction to living organisms, Cell - cell metabolism, Tissues, Integumentary, Muscular, Skeletal Systems, Digestive System, Cardiovascular System, Blood, Lymphatic System, Respiratory Systems.	Year Mark Examination Mark	40% 60%
Anatomy & Physiology II ANBT201	Neuro and senses Endocrine and reproductive Body defences and lymphatics Urinary	Year Mark Examination Mark	40% 60%
Anatomy and Physiology APHS101	Introduction to living organisms, Cell - cell metabolism, Tissues, Integumentary, Muscular, Skeletal Systems, Digestive System, Cardiovascular System, Blood, Lymphatic System, Respiratory Systems.	CA	
Disease Fundamentals DSFD101	Overview of disease processes and fundamental terminology.  Disorders of cells and tissues, skin, bone, joints, muscles and pregnancy.  Disorders in the neurological, digestive, endocrine, cardiovascular, lymphatic, immune, respiratory, renal and reproductive systems	CA	
Basic Pharmacology I BSPH101	Basic pharmacology Pharmacodynamics; Pharmacokinetics Central nervous system Non-steroidal anti-inflammatory drugs Vaccines Cardiovascular system Haemopoietic system	CA
